

# RIDER NOTICE

June 20, 2014

## Route 152 Service Changes effective July 1, 2014

In conjunction with its July 1, 2014, services changes to Route 150, RTD is modifying Route 152 effective July 1 to provide an additional service alternative for customers riding on Route 150 to the Lawrence Livermore National Laboratory (LLNL).

RTD has made the following changes to the Route 152 schedule to improve RTD's overall service to LLNL:

- Added a stop in Tracy at the Naglee Park-n-Ride
- Added travel time between Lathrop and Livermore in the morning

For many Route 152 customers, your traditional pick-up time will change by a few minutes. Please take a moment to review the schedule.

---
