TRANSMITTAL LETTER

December 24, 2019

Board of Directors San Joaquin RTD
P.O. Box 201010
Stockton, CA 95201

It is with pleasure that we submit to you the San Joaquin Regional Transit District (RTD) Comprehensive Annual Financial Report (CAFR) for the fiscal year ending June 30, 2019. RTD is required to undergo an annual audit in conformity with the provisions of the Uniform Guidance as it pertains to audits of state and local governments. State law requires that RTD publish audited financial statements within six months of the close of the fiscal year in conformity with accounting principles generally accepted in the United States of America (GAAP) and audited in accordance with auditing standards generally accepted in the United States of America by a firm of certified public accountants licensed to practice in the State of California.

This report consists of management's representations concerning the finances of RTD. RTD management is responsible for both the accuracy of the data, as well as the completeness and fairness of the presentation, including all disclosures. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner that presents the RTD's financial position and results of operations. Disclosures are included to enable the reader to gain an understanding of RTD's activities.

Vasquez & Company LLP, a firm of licensed certified public accountants, has audited RTD's financial statements as of and for the fiscal year ended June 30, 2019. The goal of the independent audit is to provide reasonable assurance that the financial statements are free of material misstatement. The independent audit includes examination of evidence supporting the amounts and disclosures in the financial statements on a test basis, assessment of the accounting principles used and significant estimates made by management, and evaluation of the overall presentation of the financial statements. The independent auditors' findings are contained in a separate report.

The independent audit of the financial statements was a part of a broader, federally-mandated "Single Audit" designed to meet the needs of federal grantor agencies. The standards governing the single audit engagements require the independent auditor to report on the fair presentation of the financial statements, internal control over financial reporting, and on compliance with federal requirements and other matters. The audit puts an emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are available in RTD's Annual Financial Report (provided separately).

GAAP requires that management provide a narrative introduction, financial statements overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). RTD's MD&A immediately follows the report of the independent auditors in the Financial Section. This letter of transmittal is designed to complement the MD&A.

CHIEF EXECUTIVE OFFICER: Donna DeMartino

BOARD OF DIRECTORS: CHAIR Gary S. Giovanetti • VICE CHAIR Michael Restuccia • Joni Bauer • Balwinder T. Singh • Les J. Fong

SAN JOAQUIN REGIONAL TRANSIT DISTRICT

PROFILE OF RTD

San Joaquin RTD is the regional transit provider for San Joaquin County. Its primary mission is to provide safe, reliable, and efficient transportation for the region. Established in 1963 as the Stockton Metropolitan Transit District (SMTD), SMTD began providing service in 1965. In 1994, with the expansion of its service area to all of San Joaquin County, SMTD became San Joaquin Regional Transit District (RTD).

A five-member Board of Directors governs RTD. The Stockton City Council appoints two members, the San Joaquin County Board of Supervisors appoints two, and the City Council and Board of Supervisors appoint one. RTD is fiscally independent of the City and County insofar as neither makes budget appropriations to RTD.

RTD's operating and capital planning decisions are based on the strategic initiatives contained within its annual Strategic Plan. The mission and vision statements of RTD guide the initiatives. Our primary mission is to provide a safe, reliable, and efficient transportation system for the region. Our vision is to be the transportation service of choice for the residents we serve.

RTD operated 30 routes in fiscal year 2019 in the Stockton Metropolitan Area, including 5 Bus Rapid Transit routes; 7 Intercity and Countywide routes; 9 Metro Hopper deviated fixed routes throughout San Joaquin County; and 8 Commuter routes to the Bay Area and Sacramento. In fiscal year 2019, RTD launched Van Go!, a new rideshare service in San Joaquin County covering four different zones: Lodi (zone 1), Lathrop and Tracy (zone 2), Manteca, Escalon, and Ripon (zone 3), and Stockton (zone 4). Van Go! offers free transfers to fixed-route bus service and extends service hours on weekdays and weekends. RTD also provides Dial-A-Ride service for persons who, due to their disability, are unable to use fixed-route service. RTD provided 3.7 million passenger trips in fiscal year 2019.

To provide convenient connections between its routes and services, RTD has four stations in south, central, north, and south east Stockton: Downtown Transit Center, Mall Transfer Station, Hammer Triangle Station, and Union Transfer Station respectively.

RTD has 141 revenue vehicles (107 buses, 30 cutaways, and 4 high top vans), 209 employees (in administration, transportation, and maintenance), and 105 contracted employees (National Express Transit - NEXT) working in its three Stockton operations and administrative locations: County Transit Center, Downtown Transit Center, and Regional Transportation Center.

FACTORS AFFECTING FINANCIAL CONDITION

RTD Management is responsible for establishing and maintaining a system of internal financial controls to provide reasonable assurance that assets are protected from loss, theft, or misuse. RTD management is responsible for assuring that adequate accounting controls are in place to provide reasonable assurance as to the accuracy of information and data used to prepare this report. The concept of reasonable assurance in internal controls requires that the cost of implementing a control should not outweigh the benefits likely to be received, and that the valuation of costs and benefits requires estimates and judgment exercised by management.

As the regional transit provider for San Joaquin County, RTD's role in providing local and regional transit services is continuously evolving to meet its ever-changing environment. RTD commits to providing the highest level of transit service to the greatest number of people within its available resources. To provide a sustainable level of service during the recent economic climate, RTD has

restructured its service design and developed a multi-faceted approach to funding. This approach looks beyond existing resources in order to maintain a stable source of revenues through partnerships with local agencies and educational institutions in Stockton, lobbying for increased federal, state, and local resources, and increased marketing efforts.

Local Economic Conditions

San Joaquin County has a population of over 752,000 people. San Joaquin County's population continues to grow at a steady pace while the County's unemployment rate has significantly improved since 2014 (although it is still high compared to California's average rate).

RTD's challenges this past fiscal year included sustaining its underfunded Defined Benefit Plan. The ever-increasing employee and employer contributions to the Defined Benefit Plan for represented employees and non-represented vested employees also affect RTD's competitiveness as an employer. RTD is committed to finding alternatives in order to provide a sustainable and affordable retirement plan.

Other challenges also included delays in the receipt of its Federal 5307 funds provided by the Federal Transit Administration (FTA). Although this has happened in previous years, the reason was due to delays in congressional action to approve an appropriations bill prior to the beginning of the fiscal year. After the appropriations bill was passed, there were several administrative functions FTA and RTD needed to complete prior to funds being available in an approved grant agreement. The FTA needed to release the appropriations notice as well as the annual certifications and assurances in the Federal Register. Once these actions were completed, RTD was then able to draft and submit a grant application.

There has been a steady increase in the demand for Dial-a-ride (DAR) services and RTD is mandated to provide this service. RTD is actively seeking opportunities to manage the demand for Dial-a-ride services by providing other mobility functions through its Travel Training Program. In fiscal year 2019, RTD launched Van Go!, a new rideshare service in San Joaquin County with same day on-demand service and extended weekdays and weekend hours. Each Van Go! vehicle is equipped to handle mobility devices such as wheelchairs. Van Go! drivers are trained, licensed, and fully prepared to help with accessibility needs.

Identifying funding for the intercity services is a critical budgetary concern for RTD to ensure its services are financially sustainable moving forward. The San Joaquin Council of Governments (SJCOG) staff will work with the jurisdictions within the county to negotiate service agreements to ensure intercity services are appropriately funded. The result of these negotiations will have an impact on RTD's financial position and the level of intercity services that RTD can afford to provide in the future.

Despite the above challenges, RTD has been successful in bringing in competitive state and federal funding to San Joaquin County because of the significance of RTD's projects, RTD's technical capacity to manage funding and deliver high-quality products, and RTD's ability to comply with the governing rules and regulations. In addition, RTD has successfully developed effective, professional, and respectful relationships with its various stakeholders.

RTD Accomplishments

RTD achieved significant accomplishments in FY 2019 that supported its strategic plan, the most notable of which are the following:

1. Completed the construction of the Martin Luther King (MLK) corridor and successfully launched BRT IV (route 49).
2. Launched RTD Van Go!, a new ride-share service in San Joaquin County.
3. Placed 12 brand new commuter buses and 5 electric buses into service.
4. Introduced new Hopper service to Mountain House and Tracy residents (route 99).
5. Added weekend service to the Dublin BART station.
6. Lowered the age at which seniors qualify for the discount fares to 60 years of age.
7. Opened the new Union Transfer Station (UTS).
8. Concluded annual CHP inspections with zero defects and complied with drug and alcohol policies.
9. Perfect Federal Transit Administration (FTA) Triennial Review with no deficiencies.

In addition to these accomplishments, the following continued efforts support its strategic goals:

- Employee development through an apprenticeship program, training and continuing education, employee awards and promotions.
- Customer satisfaction through improved amenities, passenger access to information, implementation of the Transit Ambassador Program, and enhanced interaction with customers through social media.
- Financial health through cost containment and revenue-generating activities.
- Operations excellence through improved and innovative services.
- Community relations through education, exposure, visibility, and special marketing campaigns and promotions.
- Continuous improvement through new technology and enhanced processes.

RTD received the following awards in FY 2019 which recognized RTD's achievements and performance standards:

1. Family Resource and Referral Center (FRRC) "Action on Behalf of Children" (ABC) Public Agency Award – RTD was honored for its commitment to providing family-oriented programs, such as the "Stuff the Bus" and Books on Buses, as well as taking part in children and family-oriented events.
2. Graphic Design USA Award – the Marketing team received the award for their electric bus branding and graphics for the All-Electric BRT Buses
3. Women in Transportation Seminar (WTS) Rosa Parks Diversity Award -- RTD was honored for its emphasis on creating a diverse and inclusive workforce.
4. San Joaquin County Commission on the Status of Women Susan B. Anthony Award – Donna DeMartino was honored with the award for her leadership at RTD and dedicating her time to the community.
5. American Public Transportation Association (APTA) AdWheel Awards – RTD received two First Place awards for its Rosa Parks and Care Connection campaigns.
6. Government Finance Officers Association (GFOA): Excellence in Financial Reporting Award (16th consecutive year).

Balanced Funding Concepts

On an ongoing basis, RTD reviews its strategic goals to determine the operating and capital requirements for the next five to ten years. It is increasingly important to ensure the availability of financial resources to maintain existing levels of service and to fund planned capital and operating expenditures including rolling stock replacement and additional facilities. RTD currently uses three major levels of funding resources:

- Locally-controlled federal and state funding allocations (funding given to local governments and agencies to spend on capital projects and/or operations).
- Federal discretionary funding awards (identified by the Federal Transit Administration for specific projects).
- Locally collected money (e.g., county sales taxes, Measure K, fares).

RTD's capital plan includes investing in a variety of items:

- Upgrading and improving facilities.
- Upgrading communication and IT equipment.
- Upgrading bus technologies.
- Improving passenger amenities.
- Exploring solar energy project

State/Federal Legislative Updates

Governor Signs Transit Bill

Governor Brown signed AB 3124 on June 1, 2018 which authorizes the use of three-position bike racks on 60-foot articulated transit buses. AB 3124 takes effect on January 1, 2019. The legislation was introduced by Assembly Member Richard Bloom from Santa Monica.

As bike use has been growing, the passage of AB 3124 will allow RTD to place bike racks on longer articulated buses, which will increase flexibility for transit riders.

FTA Re-Posts Revised FY 2019 Apportionment Tables

The FTA re-posted two revised FY 2019 Apportionment Tables on March 22, 2019. The apportionments represent \$10.2 billion in funds appropriated by Congress for public transit in the Consolidated Appropriations Act of 2019. The tables provide information for grantees in developing grant applications for FY 2019 formula funds.

The Stockton urbanized area will receive \$7.674 million in Section 5307 Urbanized Area Formula Apportionments and \$595,000 for the Section 5339 Bus & Bus Facilities Formula Apportionments.

Governor Releases May Revise

Governor Newsom released his annual update to the budget on May 9, 2019. The May revision increases the January Cap and Trade expenditure proposal to direct an additional \$50 million to low carbon transportation, specifically for clean trucks and buses. This brings the total funding to \$182 million for FY 2019-20. The Governor's update also reiterates the proposal to encourage jurisdictions to contribute to their fair share of the state's housing supply by linking housing production to certain transportation funds. The Governor's Budget provides that local streets and roads funds from the Road Repair and Accountability Act of 2017 (SB1) be distributed upon compliance with housing element law, zoning, and entitlements to meet updated housing goals.

The additional \$50 million for low carbon transportation would be helpful to RTD by increasing state funding for zero-emission buses and charging infrastructure.

BUDGET CONTROLS

RTD adopts an annual budget that serves as the foundation for financial planning and control. The budget is a financial plan governing the fiscal year's operating and capital investments. For capital projects exceeding one fiscal year, RTD management adopts a project-length budget. The budget matches revenues with the operating and capital project expenses based on adopted policies and direction set by RTD's Board of Directors.

The budget process follows three basic steps that provide continuity in decision-making:

1. Assess current conditions and needs to develop goals, objectives, policies, and plans.
2. Prioritize projects and develop a work program.
3. Implement identified project plans and evaluate their effectiveness and shortcomings.

RTD maintains budgetary controls to monitor compliance with RTD's authorization and adopted rules. The annual budget is categorized by fund type (operating or capital), and by department (e.g., transportation). Department managers may make transfers of line items within their department. Budget transfers between departments require the CEO's approval. Amendments to RTD's budget that occur after Board adoption of the budget for a given fiscal year require Board approval.

AWARDS AND ACKNOWLEDGEMENTS

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to San Joaquin RTD for its Comprehensive Annual Financial Report (CAFR) for the fiscal year ended in June 30, 2018. The Certificate of Achievement is a very prestigious national award that recognizes conformance with the highest standards for preparation of a state or local government financial report. This was the sixteenth consecutive year that RTD has received this award. In order to be eligible for this award, a government unit must publish an easily readable and efficiently organized CAFR. This report must satisfy both generally accepted accounting principles (GAAP) and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR meets the Certificate of Achievement Program's requirements, and we will submit it to the GFOA to determine eligibility for another certificate.

The preparation of this report would not have been possible without the efficient and dedicated services of several departments, especially the Finance Department. The preparation of this CAFR demonstrates staff's dedication to improve the standard of reporting to the Board of Directors and RTD's stakeholders. I would like to express my appreciation to all RTD staff who assisted and contributed to the preparation of this report.

Respectfully submitted,

Gloria Salazar, Deputy CEO

FINANCIAL SECTION

REPORT OF INDEPENDENT AUDITORS

Board of Directors San Joaquin Regional Transit District

Report on the Financial Statements

We have audited the accompanying financial statements of the San Joaquin Regional Transit District (RTD), which comprise the statements of net position as of June 30, 2019 and 2018, the related statements of revenues, expenses, and changes in net position, and cash flows for the years then ended, and the related notes to the financial statements (collectively, the basic financial statements).

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the San Joaquin Regional Transit District as of June 30, 2019 and 2018, and the changes in its financial position, and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 4 through 18 and Required Supplementary Information on pages 55 through 58, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise RTD's basic financial statements. The introductory and statistical sections are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 31, 2019, on our consideration of RTD's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of RTD's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering RTD's internal control over financial reporting and compliance.

Vaughan & Company LLP

**Glendale, California
December 31, 2019**

Introduction

The following discussion and analysis of the financial performance and activity of the San Joaquin Regional Transit District (RTD) provides an introduction and understanding of the basic financial statements of RTD for the years ended June 30, 2019, and June 30, 2018. This discussion has been prepared by management and should be read in conjunction with the financial statements and the notes thereto, which follow this section.

RTD is the regional transit provider for San Joaquin County. Its primary mission is to provide a safe, reliable, and efficient transportation system for the region. Established in 1963 as the Stockton Metropolitan Transit District (SMTD), SMTD began providing service in 1965. In 1994, with the expansion of its service area to all of San Joaquin County, SMTD became San Joaquin Regional Transit District (RTD).

A five-member Board of Directors governs RTD. The Stockton City Council appoints two members, the San Joaquin County Board of Supervisors appoints two members, and the City Council and Board of Supervisors appoint one jointly. RTD is fiscally independent of the City and County insofar as neither makes budget appropriations to RTD.

RTD operates 30 routes in the Stockton Metropolitan Area, including 5 Bus Rapid Transit routes; 7 Intercity and Countywide routes; 9 Metro Hopper deviated fixed routes throughout San Joaquin County, and 8 Commuter routes to the Bay Area and Sacramento. In fiscal year 2019, RTD launched Van Go!, a new rideshare service in San Joaquin County covering four different zones: Lodi (zone 1), Lathrop and Tracy (zone 2), Manteca, Escalon, and Ripon (zone 3), and Stockton (zone 4). Van Go! offers free transfers to fixed-route bus service and extends service hours on weekdays and weekends. RTD also provides Dial-A-Ride service for persons who, due to their disability, are unable to use fixed-route service. In fiscal year 2019, RTD provided 3.7 million passenger trips.

To provide convenient connections between its routes and services, RTD has four stations in south, central, north, and south east Stockton: Downtown Transit Center, Mall Transfer Station, Hammer Triangle Station, and Union Transfer Station respectively.

RTD has 141 revenue vehicles (107 buses, 30 cutaways, and 4 high top vans), 209 employees (in administration, transportation, and maintenance), and 105 contracted employees (National Express Transit—NEXT) working in its three Stockton operations and administrative locations: County Transit Center, Downtown Transit Center, and Regional Transportation Center.

The Financial Statements

RTD's basic financial statements include: (1) the Statement of Net Position; (2) the Statement of Revenues, Expenses, and Changes in Net Position; and (3) the Statement of Cash Flows. The financial statements are prepared in accordance with accounting principles generally accepted in the United States of America.

The Statement of Net Position reports assets and deferred outflows of resources, liabilities and deferred inflows of resources, and the difference as net position. The entire equity section is combined to report total net position and is displayed in two components: net investment in capital assets and unrestricted net position.

**San Joaquin Regional Transit District
Management's Discussion and Analysis (Unaudited)
June 30, 2019 and 2018**

The net asset component of net investment in capital assets consists of capital assets, including restricted capital assets, net of accumulated depreciation, and is reduced by the outstanding balances of any borrowings attributable to the acquisition, construction, or improvements of those assets.

Restricted net position consists of assets where constraints on their use are externally imposed by creditors (such as through debt covenants, if any), grantors, contributors, or laws and regulations of other governments.

Unrestricted net position consists of net position that does not meet the definition of restricted or net investment in capital assets. This net position component includes net position that has been designated by management as operating and capital reserves for purposes that may include assets allocated to fund capital projects, reserves for self-insurance, other liabilities, and operations, provided such use is approved by the RTD Board.

Revenues and expenses are categorized as either operating or non-operating based upon the definitions provided by GASB Statements No. 33 and No. 34. Significant recurring resources of RTD's revenues, such as capital contributions, are reported as non-operating revenues.

The statement of cash flows is presented using the direct method and includes a reconciliation of operating cash flows to operating loss.

Financial Highlights

Statement of Revenues, Expenses, and Change in Net Position

A summary of RTD's Statements of Revenues, Expenses and Changes in Net Position for the fiscal years ended June 30, 2019, 2018, and 2017 follows:

			<u>Increase (Decrease)</u>		<u>2017</u>	<u>Increase (Decrease)</u>	
	<u>2019</u>	<u>2018</u>	<u>Amount</u>	<u>%</u>		<u>Amount</u>	<u>%</u>
					(Restated)		
Operating revenues	\$ 3,524,709	\$ 3,626,273	\$ (101,564)	-3%	\$ 3,827,801	\$ (201,528)	-5%
Operating expenses	(51,928,744)	(46,605,935)	(5,322,809)	11%	(43,854,012)	(2,751,923)	6%
Operating loss	(48,404,035)	(42,979,662)	(5,424,373)	13%	(40,026,211)	(2,953,451)	7%
Non-operating revenues	37,400,787	30,773,513	6,627,274	22%	28,156,778	2,616,735	9%
Non-operating expenses	(520,199)	(533,473)	13,274	-2%	(533,105)	(368)	0%
Capital contributions	22,976,880	12,656,081	10,320,799	82%	12,741,263	(85,182)	-1%
Change in net position	11,453,433	(83,541)	11,536,974	-13810%	338,725	(422,266)	-125%
Total net position, beginning of year	84,945,877	85,029,418	(83,541)	0%	91,253,693	(6,224,275)	-7%
Prior period adjustment	-	-	-	0%	(6,563,000)	6,563,000	100%
Total net position, end of year	\$ <u>96,399,310</u>	\$ <u>84,945,877</u>	\$ <u>11,453,433</u>	<u>13%</u>	\$ <u>85,029,418</u>	\$ <u>(83,541)</u>	<u>0%</u>

Fiscal year 2019 vs. 2018

RTD's fiscal year 2019 net operating revenues decreased by \$101,564 or (3%) over fiscal year 2018. Operating revenues decreased primarily due to a decline in sales of adult 31-day and student 31-day bus passes. RTD provided 74 days of free rides to customers this fiscal year, which also contributed to the decrease in passenger fares.

**San Joaquin Regional Transit District
Management's Discussion and Analysis (Unaudited)
June 30, 2019 and 2018**

Operating expenses increased by \$5,322,808 or 11% primarily due to increases in salaries and fringe benefits, contract services, purchase transportation costs, and depreciation expense.

Operators' salaries increased by \$436,897 or 12% in fiscal year 2019 as a result of labor agreement for represented employees. In September 2018, RTD received an arbitration decision awarding operator wage increase by 4.25% effective July 1, 2018. Other salaries increased \$331,381 due to a 7.5% increase to the current rates for all represented maintenance staff (relative to the top operator wage) effective October 1, 2018 based on the same arbitration decision. Other salaries also increased due to promotions and merit increases for employees.

Fringe benefits increased \$1,468,006 or 18% due to the following: a \$554,503 increase in retirement plan costs as a result of an increase in contribution rates by 2.52%; a \$519,387 increase in provision for workers compensation reserves; \$139,500 bonus pay (one-time) arbitration award for operators at \$1,500 each; and a \$103,020 increase in medical premium costs.

Contract service expenses increased \$720,874 or 30% due to a \$224,926 increase in ADA assessment costs as a result of the Consolidated Transportation Services Agency (CTSA) program that centralizes ADA certification for the entire San Joaquin County. In May 2018, the San Joaquin Council of Governments (SJCOG) unanimously approved the designation of RTD as the CTSA for the San Joaquin County and the program started in July 2018.

Legal services increased \$343,190 because of legal fees incurred for represented employees' labor negotiation agreement, on-call legal services for labor relations, and the conversion of RTD's in-house legal counsel to outside legal services. Temporary help costs increased \$113,985 mainly due to filling of vacated positions.

Purchased Transportation costs increased by \$1,667,422 or 25%, mainly due to the new Van Go! service that was launched in fiscal year 2019. This new rideshare service in San Joaquin County provides same day on-demand service. The increase in demand for dial-a-ride service also contributed to the increase in Purchased Transportation cost.

Depreciation expense increased by \$926,327 or 9% primarily because of revenue vehicle purchases (commuter and electric buses) and the completion of the BRT IV Martin Luther King (MLK) Corridor construction, which began service in fiscal year 2019.

Non-operating revenues primarily consist of operating subsidies from federal, state, and local funding sources. The increase in non-operating revenues of \$6,627,273 or 22% is primarily due to a \$4,891,074 increase in Transportation Development Act (TDA) operating subsidies and \$1,028,940 in federal program 5311 which was available in the current fiscal year, and \$1,132,974 increase in Low Carbon Transit Operations Program (LCTOP).

Non-operating expenses are made up of long-term loan interest.

Capital contributions increased by \$10,320,799 or 82% in fiscal year 2019 mainly due to the following projects: purchase of new commuter and electric buses, construction of MLK corridor, purchase of overhead bus electric chargers, installation of pedestrian collision avoidance systems in buses, and the cost for engines rebuild/replacement, transmissions, and passenger amenities improvements.

**San Joaquin Regional Transit District
Management's Discussion and Analysis (Unaudited)
June 30, 2019 and 2018**

The net position as of June 30, 2017 was restated to reflect the effect of GASB Statement No. 75, Accounting and Financial Reporting for OPEB.

Fiscal Year 2018 vs. 2017

RTD's fiscal year 2018 operating revenues decreased by \$201,528 or (5%) over fiscal year 2017. Operating revenues decreased primarily due to a \$320,079 decline in passenger fares revenues from an overall decrease in ridership compared to fiscal year 2017. Ridership decreased mainly due to readily available on-demand transportation like Uber and Lyft, a decline in enrollment at Delta College's Stockton campus, and an improving economy which enabled the public to afford their own means of transportation. Another contributing factor is that one of the two new Bus Rapid Transit (BRT) routes, (Midtown Corridor route 47) began service towards the end of the school year; ridership may have been positively affected had the service been introduced earlier that year. Online shopping has also contributed to the declining use of public transportation, which is consistent with the trend nationwide.

RTD's fiscal year 2018 operating expenses increased by \$2,751,923 or 6% primarily due to increases in salaries and fringe benefits, other post-employment benefits (OPEB) expenses, purchased transportation costs, and depreciation expense.

Total salaries increased by \$498,230 or 5% mainly due to 1) a new incentive program for operators in fiscal year 2018 which paid double time for work in excess of forty hours per week and an extra \$20 per day for operators who completed their regularly scheduled work; and 2) promotions and merit increases for employees. Additionally, due to restrictions in the scope of funding and fewer capital projects during fiscal year 2018, there were no salaries required to be capitalized in the current year related to capital projects.

Three factors contributed to the \$549,910 or 7% increase in fringe benefits: 1) \$258,480 increase in retirement plan costs due to contribution rate increases of 5.2%; 2) \$272,336 increase in workers' compensation accrual expense; and 3) \$142,788 increase in OPEB expense due to an increase in the actuarially determined OPEB liability in accordance with GASB Statement 75.

Purchased transportation costs increased by \$703,940 mainly due to the new contract with National Express Transit (NEXT) effective April 29, 2018. RTD's partnership in fiscal year 2018 with Uber and Journey via Gurney (JVG) to provide on demand services also contributed to the increase in purchased transportation cost.

Depreciation expense increased by \$545,294 or 5% primarily because of revenue vehicle purchases (Hopper buses) in the current year and the completion of the BRT V Midtown Corridor construction, which was placed in service in fiscal year 2018.

Non-operating revenues primarily consist of operating subsidies from federal, state, and local funding sources. The increase in non-operating revenues of \$2,616,735 or 9% is primarily due to a \$2,466,657 increase in Measure K operating subsidies.

Capital contributions decreased slightly by \$85,182 or (1%) in fiscal year 2018. Projects for fiscal year 2018 primarily included the purchase of new Hopper buses and electric chargers; the costs for BRT IV and BRT V construction projects; and the cost for engines rebuild/replacement, transmissions, and passenger amenities improvements.

Management's Discussion and Analysis (Unaudited)
June 30, 2019 and 2018**

Operating and Non-Operating Revenues

Below is a schedule showing major sources of operating and non-operating revenues for the fiscal years ended June 30, 2019, 2018 and 2017:

	2019	2018	Increase (Decrease)		2017	Increase (Decrease)	
			Amount	%		Amount	%
Operating revenues by major source							
Passenger	\$ 3,116,865	\$ 3,383,304	\$ (266,439)	-8%	\$ 3,703,383	\$ (320,079)	-9%
Auxiliary	112,853	120,399	(7,546)	-6%	71,730	48,669	68%
Non-transportation	294,991	122,570	172,421	141%	52,688	69,882	133%
	<u>3,524,709</u>	<u>3,626,273</u>	<u>(101,564)</u>	<u>-3%</u>	<u>3,827,801</u>	<u>(201,528)</u>	<u>-5%</u>
Non-operating revenues by major source							
Local property taxes	1,067,846	994,899	72,947	7%	967,785	27,114	3%
State and local cash grants	30,296,675	24,622,534	5,674,141	23%	21,414,426	3,208,108	15%
Federal cash grants	6,015,139	5,139,112	876,027	17%	5,762,496	(623,384)	-11%
Interest and investment income	18,318	6,814	11,504	169%	12,071	(5,257)	-44%
Other non-operating revenues	2,809	10,154	(7,345)	-72%	-	10,154	100%
	<u>37,400,787</u>	<u>30,773,513</u>	<u>6,627,274</u>	<u>22%</u>	<u>28,156,778</u>	<u>2,616,735</u>	<u>9%</u>
Total revenues	<u>\$ 40,925,496</u>	<u>\$ 34,399,786</u>	<u>\$ 6,525,710</u>	<u>19%</u>	<u>\$ 31,984,579</u>	<u>\$ 2,415,207</u>	<u>8%</u>

Revenues – Fiscal Year 2019 vs. 2018

Passenger fares revenue in fiscal year 2019 decreased by \$266,439 or (8%). Operating revenues decreased primarily due to a decline in sales of adult 31-day and student 31-day bus passes. RTD provided 74 days of free rides to customers this fiscal year, which also contributed to the decrease in passenger fares.

Auxiliary revenues decreased by \$7,546 or (6%) due to lower RTD advertising revenue. Non-transportation revenues increased by \$172,421 or 141% primarily due to rent collected from Greyhound Lines, Inc. for renting Downtown Transit Center space.

Local property tax revenue increased by \$72,948 or 7% due to an increased apportionment to RTD from increasing property values. State and local cash grants increased by \$5,674,141 or 23% also due to increased apportionment of TDA Local Transportation Funds (LTF) and State Transit Assistance (STA) of \$4,891,074 in fiscal year 2019 as a result of higher sales tax generated by the state.

Federal cash grants increased \$876,027 or 17% mainly due to federal program 5311 which was available in the current fiscal year as compared to fiscal year 2018.

Interest and investment income increased by \$11,504 or 169% due to overall higher cash balances in fiscal year 2019 as compared to the prior year.

Other non-operating revenues decreased \$7,346 or (72%) due to the fact that there were fewer recoveries from insurance companies and third parties for damaged RTD properties in the current year.

Revenues – Fiscal Year 2018 vs. 2017

Passenger fares revenue in fiscal year 2018 decreased by \$320,079 or (9%). This was primarily due to a decline in fare revenues caused by an overall decrease in ridership compared to fiscal year 2017. Ridership decreased mainly due to readily available on-demand transportation like Uber and Lyft, a decline in enrollment at Delta College's Stockton campus, and an improving economy which enabled the public to afford their own means of transportation. In addition one of the two new BRT routes, (Midtown Corridor route 47), began service towards the end of the school year; ridership may have been positively affected had the service been introduced earlier that year. Online shopping has also contributed towards the decline in the use of public transportation.

Auxiliary revenues increased by \$48,669 or 68% because of higher RTD advertising revenue. Non-transportation revenues increased by \$69,882 or 133% primarily due to rental income from Greyhound Lines, Inc., for Downtown Transit Center space rental.

Local property tax revenue increased by \$27,114 or 3% due to an increased apportionment to RTD from increasing property values. State and local cash grants increased by \$3,208,108 or 15% primarily because local funds subsidies for BRT operations and TDA Local Transportation Funds (LTF) were higher in fiscal year 2018 due to higher sales tax generated by the state.

Federal cash grants decreased \$623,384 or (11%) mainly due to a \$458,485 decrease in federal grant 5307 operating subsidy reimbursement; also, federal program 5311 was not available in the current fiscal year as compared to fiscal year 2017.

Interest and investment income decreased by \$5,257 or (44%) due to lower cash balances in fiscal year 2018 as compared to the prior year.

Non-operating revenues include recoveries from insurance companies and third parties for damaged RTD properties. In fiscal year 2018, recoveries were recorded as a component of non-operating revenues due to the new Universal System of Accounts (USOA) guidelines. In prior years, such recoveries were recorded as an offset to the related expense account.

**San Joaquin Regional Transit District
Management's Discussion and Analysis (Unaudited)
June 30, 2019 and 2018**

Below is a schedule showing the components of operating and non-operating expenses for the fiscal years ended June 30, 2019, 2018 and 2017:

			<u>Increase (Decrease)</u>				<u>Increase (Decrease)</u>	
	<u>2019</u>	<u>2018</u>	<u>Amount</u>	<u>%</u>	<u>2017</u>	<u>Amount</u>	<u>%</u>	
Operating expenses								
Operators' salaries	\$ 4,192,602	\$ 3,755,705	\$ 436,897	12%	\$ 3,569,987	\$ 185,718	5%

Non-operating expenses								
Interest expense	<u>520,199</u>	<u>533,473</u>	<u>(13,274)</u>	<u>-2%</u>	<u>521,059</u>	<u>12,414</u>	<u>2%</u>	
Total expenses	<u>\$ 52,448,943</u>	<u>\$ 47,139,408</u>	<u>\$ 5,309,535</u>	<u>11%</u>	<u>\$ 44,375,071</u>	<u>\$ 2,764,337</u>	<u>6%</u>	

Expenses – Fiscal Year 2019 vs 2018

Total expenses (excluding depreciation, pension, and OPEB expenses) for fiscal year 2019 were \$39,315,860 as compared to \$34,399,788 in fiscal year 2018, which is a net increase of \$4,916,071 or 14% from prior year.

Operators' salaries increased by \$436,897 or 12% in fiscal year 2019 as a result of labor agreement for represented employees. In September 2018, RTD received an arbitration decision awarding operator wage increase by 4.25% effective July 1, 2018.

Other salaries increased \$331,381 or 5% primarily due to a 7.5% increase to the current rates for all represented maintenance staff (relative to the top operator wage) effective October 1, 2018 based on the same arbitration decision. Other salaries also increased due to promotions and merit increases for employees.

Fringe benefits increased \$1,468,006 or 18% primarily due to the following: a \$554,503 increase in retirement plan costs as a result of increase in contribution rates by 2.52%; a \$519,387 increase in provision for workers compensation reserve; \$139,500 bonus pay (one-time) arbitration award for operators at \$1,500 each; and \$103,020 increase in medical premium costs.

Pension expense decreased by \$219,000 or (13%) due to a decrease in the actuarially-determined pension liability in accordance with GASB Statement No. 68.

Other Post-Employment Benefits (OPEB) expense decreased by \$222,863 or (35%) due to a decrease in the actuarially-determined OPEB liability in accordance with GASB Statement No. 75.

**San Joaquin Regional Transit District
Management's Discussion and Analysis (Unaudited)
June 30, 2019 and 2018**

Contract services increased by \$720,874 or 30% primarily due to a \$224,926 increase in ADA assessment costs as a result of the Consolidated Transportation Services Agency (CTSA) program that centralizes ADA certification for the entire San Joaquin County. In May 2018, the San Joaquin Council of Governments (SJCOG) unanimously approved the designation of RTD as the CTSA for the San Joaquin County and the program started in July 2018.

Legal services increased \$343,190 because of legal fees incurred for represented employees' labor negotiation agreement, on-call legal services for labor relations, and the conversion of RTD's in-house legal counsel to outside legal services. Temporary help costs increased \$113,985 because of filling vacant positions.

Fuel and lubricants expenses increased by \$232,585 or 18% mainly due to higher fuel cost per gallon and higher fuel usage in fiscal year 2019 as compared to fiscal year 2018. In fiscal year 2019, RTD bought 8 new unleaded fuel buses for the new Van Go! Service, which also contributed to higher fuel costs. Tires and tubes reflect nonrevenue vehicle tire expenses, and in fiscal year 2019, the \$2,530 or (30%) decrease is due to less tire wear and tear. Other materials and supplies decreased by \$335,521 or (31%) primarily due to fewer parts usage in fiscal year 2019.

Utilities expenses increased by \$24,781 or 3% because communications cost was higher in fiscal year 2019 due to additional network connections. Electric fuel usage was also higher as a result of increased use of electric buses. There was a total of 17 electric buses in service in fiscal year 2019 as compared to 12 in the prior year.

As a result of new revenue vehicles purchased and the completion of the BRT IV Martin Luther King (MLK) Corridor construction, insurance expense increased by \$229,945 or 27% due to an increase in premium coverage for 1) excess auto & general liability and 2) physical damage. Settlement payouts and recording incurred but not reported (IBNR) claims for fiscal year 2019 also contributed to the increase.

Taxes reflect fuel and lubricant taxes, electric power taxes, property assessments, and permits and renewals. The increase of \$52,439 or 25% was mainly due to an increase in fuel expenses.

Purchased Transportation costs increased by \$1,667,422 or 25%, mainly due to the new Van Go! service that was launched in fiscal year 2019. This new rideshare service in San Joaquin County provides same day on-demand service. The increase in demand for dial-a-ride service also contributed to the increase in Purchased Transportation cost.

Other expenses increased by \$12,066 or 1% mainly due to advertising expenses for promotion and outreach for new services.

Depreciation expense increased by \$926,327 or 9% primarily because of revenue vehicle purchases (commuter and electric buses) and the completion of the BRT IV Martin Luther King (MLK) Corridor construction, which was placed in service in fiscal year 2019.

Interest expense is related to the Measure K loan payable.

Expenses – Fiscal Year 2018 vs. 2017

Total expenses (excluding depreciation, pension and OPEB expenses) for fiscal year 2018 were \$34,399,788 as compared to \$31,984,579 in fiscal year 2017, which is a net increase of \$2,415,209 or 8% from prior year.

Operators' salaries increased \$185,718 or 5% in fiscal year 2018 mainly due to a new incentive program for operators in fiscal year 2018 which paid double time for working in excess of forty hours per week and an extra \$20 per day for operators who completed their regularly scheduled work.

Other salaries increased \$312,512 or 5% primarily due to promotions and merit increases for employees. Additionally, due to restrictions in the scope of funding and fewer capital projects during fiscal year 2018, there were no salaries required to be capitalized in the current year related to capital projects.

Fringe benefits increased \$549,910 or 7% primarily due to a \$258,480 increase in retirement plan costs because contribution rates increased by 5.2% and a \$272,336 increase in provision for workers compensation accrual expense.

Pension expense decreased by \$351,000 or (17%) due to a decrease in the actuarially determined pension liability in accordance with GASB Statement No. 68.

OPEB expense was \$142,788 as a result of the implementation of GASB Statement No. 75 in the current fiscal year.

Contract services decreased by \$88,249 or (4%) primarily due to RTD using fewer legal and attorney services, and outside services for maintenance and security as compared to fiscal year 2017. As RTD did not require all of the legal services as in prior years, some of these contracts were not renewed in fiscal year 2018. Outside services for maintenance decreased because of improved preventive maintenance inspections, fewer accidents, and in-house training for repairs that were previously sent outside.

Fuel and lubricants expenses increased by \$90,151 or 7% mainly due to higher fuel cost per gallon compared to fiscal year 2017. In fiscal year 2018, RTD replaced old Hopper diesel buses with 22 new Hopper unleaded fuel buses which also contributed to higher fuel costs. Tires and tubes reflect nonrevenue vehicle tire expenses and in fiscal year 2018, the \$1,513 decrease is due to less tire wear and tear. Other materials and supplies decreased by \$2,411 primarily due to fewer parts usage in fiscal year 2018.

Utilities expenses increased by \$106,083 or 14% because electric fuel usage was higher as a result of increased use of electric buses. There was a total of 12 electric buses in service in fiscal year 2018 as compared to 2 in the prior year.

Insurance expense increased by \$235,598 or 39% due to an \$39,159 increase in premiums for coverage of excess auto and general liability, and a \$204,397 increase in incurred claims for self-insured liability payouts for fiscal year 2018.

Taxes reflect fuel and lubricant taxes, property assessments, and permits and renewals. The increase of \$28,279 was mainly due to an increase in corresponding fuel expenses.

**San Joaquin Regional Transit District
Management's Discussion and Analysis (Unaudited)
June 30, 2019 and 2018**

Purchased transportation expenses increased by \$703,940 or 12% mainly due to the new contract with National Express Transit (NEXT) effective April 29, 2018. RTD's partnership in fiscal year 2018 with Uber and Journey via Gurney (JVG) to provide on-demand services also contributed to the increase.

Other expenses increased by \$294,823 or 41%, mainly due to interest expense on short-term debt borrowings in the current year under the line of credit as a result of delays in receiving the federal and state funding. Advertising expenses were also higher due to promotion and outreach for new services.

Depreciation expense increased by \$545,294 or 5% primarily due to the purchase of revenue vehicles (Hopper buses) and the completion of the BRT V Midtown Corridor construction, which was placed in service in fiscal year 2018.

Interest expense is related to the Measure K loan payable.

Statements of Net Position

A comparison of RTD's Statements of Net Position as of June 30, 2019, 2018, and 2017 is as follows:

			Increase (Decrease)				Increase (Decrease)	
	2019	2018	Amount	%	2017 (Restated)	Amount	%

Total net position	\$ 96,399,310	\$ 84,945,877	\$ 11,453,433	13%	\$ 85,029,418	\$ (83,541)	0%	

June 30, 2019 vs June 30, 2018

Current and other assets decreased by \$4,328,707 or (13%) as compared to the prior year primarily due to a \$2.7 million decrease in receivables, related to 1) a \$5.1 million decrease in federal grants receivable related to federal reimbursements received in the current year related to prior year's capital projects costs (purchase of new Hopper buses, electric charges, and the BRT IV and BRT V construction projects) and 2) a \$1.8 million decrease in the total Measure K receivable due to payments received during the year, which was partially offset by a \$1.3 million increase in TDA funds receivable from SJCOG. The \$2.7 million decrease in receivables was partially offset by a \$2 million increase in cash and cash equivalents. In fiscal year 2019, RTD received federal reimbursements for the prior year's capital projects such as purchase of new Hopper buses, electric chargers, and cost of BRT IV and BRT V construction projects.

**San Joaquin Regional Transit District
Management's Discussion and Analysis (Unaudited)
June 30, 2019 and 2018**

Capital assets, net of accumulated depreciation, increased by \$11,532,450 or 10% primarily due to the purchase of new commuter and electric buses, construction of MLK corridor, and purchase of overhead bus electric chargers in the current year. The noncurrent portion of the Measure K receivable decreased due to a change in agreement to pay \$2,000,000 in principal each year as compared to \$200,000 in prior years.

Total deferred outflows of resources decreased by \$1,510,188 or (20%) as compared to the prior year primarily due to the decrease in the net difference between actual and projected earnings on investments related to pensions by \$1,449,000. The decrease in deferred outflows of resources related to OPEB also contributed to the overall decrease.

Current liabilities decreased by \$1,947,847 or (12%) primarily due to a \$5,750,000 decrease in the line of credit payable, as federal reimbursement receivables related to prior years were received in fiscal year 2019 and thus RTD did not need to use the line of credit. This was partially offset by 1) a \$1.8 million increase in the current portion of the Measure K loan payable due to a change in agreement to pay \$2,000,000 in principal each year as compared to \$200,000 in prior years to escalate paying off the loan and 2) a \$1.9 million increase in accounts payable and other liabilities due to receiving some significant vendor invoices towards the end of the current fiscal year.

Long-term liabilities decreased by \$3,599,769 or (7%) primarily due to a decrease of \$3,800,000 in the long term portion of the Measure K loan payable due to a change in agreement to pay \$2,000,000 in principal each year as compared to \$200,000 in prior years to escalate paying off the loan.

Total deferred inflows of resources decreased by \$212,263 or (9%) primarily due to the decrease in the differences between expected and actual experience related to pensions by \$697,000 which was partially offset by the increase in deferred inflows of resources related to OPEB by \$484,737.

Net investment in capital assets increased by \$13,532,450 or 13% due to the purchase of revenue vehicles (commuter and electric buses), construction costs incurred related to the MLK corridor improvement capital projects, and the purchase of overhead bus electric chargers in the current fiscal year.

The unrestricted net deficit increased by \$2,079,017 or 11% compared to the prior year. This increase was primarily due to total expenses of \$52,448,943, exceeding total revenues of \$40,925,496 in the current year.

June 30, 2018 vs June 30, 2017

As of June 30, 2018, current and other assets increased by \$806,748 or 3% as compared to the prior year primarily due to an increase in cash. RTD received TDA operating grant funds in the amount of \$1,525,000 towards the end of the fiscal year.

As of June 30, 2018, Capital assets, net of accumulated depreciation increased by \$2,160,361 or 2% as compared to the prior year primarily due to the ongoing construction of the BRT IV Martin Luther King Jr corridor.

As of June 30, 2018, deferred outflows of resources decreased by \$818,188 or (10%) as compared to the prior year primarily due to the decrease in the net difference between actual and projected earnings on investments related to pensions by \$1,892,000, which was partially offset by the increase in deferred outflows of resources related to OPEB by \$973,812.

**San Joaquin Regional Transit District
Management's Discussion and Analysis (Unaudited)
June 30, 2019 and 2018**

As of June 30, 2018, current liabilities increased by \$4,854,258 or 44% primarily due to the total balance of the \$5,750,000 line of credit payable being due within one year. The use of the line of credit during fiscal year 2018 is due to delays in receiving federal funding to cover expenditures that had pre-award authority under federal grants 5307.

As of June 30, 2018, long-term liabilities decreased by \$2,474,396 or (4%) as compared to the prior year primarily due to the decrease of \$3,300,000 in the long-term portion of the line of credit payable as the total outstanding balance is classified as a current liability. This decrease was partially offset by \$847,000 increase in net OPEB liability.

As of June 30, 2018, deferred inflows of resources decreased by \$147,400 or (6%) as compared to the prior year primarily due to the decrease in the differences between expected and actual experience related to pensions by \$417,000 which was partially offset by the increase in deferred inflows of resources related to OPEB by \$269,600.

As of June 30, 2018, net position - net investment in capital assets increased by \$2,360,361 or 2% as compared to the prior year due to the purchase of revenue vehicles and construction costs incurred related to the corridor improvement capital projects in fiscal year 2018.

As of June 30, 2018, the net position - unrestricted net deficit increased by \$2,443,902 or (15%) as compared to the prior year primarily due to total expenses (excluding depreciation) of \$36,243,576 exceeding total revenues (excluding capital contributions) of \$34,399,786 by \$1.8 million in fiscal year 2018.

June 30, 2019 vs. June 30, 2018

Capital assets, net of accumulated depreciation, increased by \$11,532,450 as compared to the prior year. This increase was due to \$23 million in capital assets additions in fiscal year 2019, mainly related to purchase of revenue vehicles (commuter and electric buses), construction costs incurred related to the corridor improvement capital projects (BRT IV & V construction projects) and purchase of overhead bus electric chargers, which was partially offset by current year depreciation expense of \$11.8 million.

June 30, 2018 vs. June 30, 2017

Capital assets, net of accumulated depreciation, increased by \$2,160,361 as compared to the prior year. This increase was due to \$13 million in capital assets additions in fiscal year 2018 primarily related to the purchase of revenue vehicles and construction of the corridor improvement capital projects (BRT IV and V construction), which was partially offset by current year depreciation expense of \$10.9 million.

See note 4 for further information.

**San Joaquin Regional Transit District
Management's Discussion and Analysis (Unaudited)
June 30, 2019 and 2018**

Long-Term Debt

Long- term debt as of June 30, 2019, 2018, and 2017 is comprised of the following:

	2019		2018		2017		Increase (Decrease)	
	Amount	%	Amount	%	Amount	%	Amount	%
Measure K loan payable	\$ 11,800,000		\$ 13,800,000		\$ 14,000,000		\$ (200,000)	-1%
Line of credit payable	-		5,750,000		3,300,000		2,450,000	74%
	<u>\$ 11,800,000</u>		<u>\$ 19,550,000</u>		<u>\$ 17,300,000</u>		<u>\$ 2,250,000</u>	<u>13%</u>

June 30, 2019 vs. June 30, 2018

The total Measure K loan payable balance decreased by \$2,000,000 due to the principal payment during fiscal year 2019. \$2 million of the Measure K receivable balance was used to reduce the principal balance of the Measure K loan payable per the agreement.

June 30, 2018 vs. June 30, 2017

The total Measure K loan payable balance decreased by \$200,000 due to settlement, whereby the Measure K receivable was used to reduce the principal balance per the agreement.

See note 8 for further information.

Economic Condition, Outlook, and Activity

RTD's operating and capital planning decisions are based on the strategic initiatives contained within its annual Strategic Plan. The mission and vision statements of RTD guide the initiatives. Our primary mission is to provide a safe, reliable, and efficient transportation system for the region. Our vision is to be the transportation service of choice for the residents we serve.

RTD achieved significant accomplishments in FY 2019 that supported its strategic plan. The most notable of which are the following:

1. Completed the construction of the Martin Luther King (MLK) corridor and successfully launched BRT IV (Route 49).
2. Launched RTD Van Go!—a new ride-share service in San Joaquin County.
3. Placed 12 brand new commuter buses and 5 electric buses into service.
4. Introduced new Hopper service to Mountain House and Tracy residents (Route 99).
5. Added weekend service to the Dublin BART station.
6. Lowered the age at which seniors qualify for the discount fares to 60 years of age.
7. Opened the new Union Transfer Station (UTS).
8. Concluded annual CHP inspections with zero defects and complied with drug and alcohol policies.
9. Perfect Federal Transit Administration (FTA) Triennial Review with no deficiencies.

Contacting RTD's Financial Management

RTD's financial report is designed to provide RTD's Board of Directors, management, and the public with an overview of RTD's finances. For additional information about this report, please contact Gloria Salazar, Deputy CEO, San Joaquin RTD, P. O. Box 201010, Stockton, California 95201.

See notes to financial statements.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Description of the Reporting Entity

San Joaquin Regional Transit District (RTD) was organized in 1964 as the Stockton Metropolitan Transit District. In 1994, it was renamed the San Joaquin Regional Transit District to better describe its expanded service area. RTD provides local, inter-city and inter-regional public transportation to the residents of San Joaquin County, California. Commuter service to the Bay Area and Sacramento are also provided by RTD. The RTD is governed by a five-member board consisting of two members appointed by the Stockton City Council, two members appointed by the San Joaquin County Board of Supervisors, and one jointly appointed member by the City Council and Board of Supervisors. The RTD is fiscally independent of the City of Stockton and San Joaquin County (the County) insofar as neither makes budget apportionments to RTD.

B. Measurement Focus, Basis of Accounting and Presentation

The financial statements of RTD have been prepared in conformity with general accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is the acknowledged standard setting body for establishing accounting and financial reporting standards followed by governmental entities in the United States.

Measurement Focus

The statement of net position and the statement of revenues, expenses and changes in net position, are presented using the economic resources measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net position (or cost recovery), financial position, and cash flows. All assets and all liabilities (whether current or noncurrent) associated with operations are reported. Proprietary fund equity is classified as net position.

Basis of Accounting

In the statement of net position, and statement of revenues, expenses and changes in net position, business-like activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or the economic asset used. Revenues, expenses, gains, losses, assets and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Enterprise funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services in connection with RTD's principal ongoing operational activities. Charges to customers represent RTD's principal operating revenues and include passenger fares, special transit fares, and auxiliary transportation. Operating expenses include the cost of operating, maintenance and support of transit services and related capital assets, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and/or expenses.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Grant revenues are recognized in the fiscal year in which all eligibility requirements are met. Under the terms of grant agreements, RTD may fund certain programs with a combination of cost-reimbursement grants, categorical block grants, and general revenues. Thus, both restricted and unrestricted net position are available to finance program expenditures. RTD's policy is to first apply restricted grant resources to such programs, followed by general revenues if necessary.

Certain indirect costs are included in program expenses reported for individual functions and activities.

Non-exchange transactions, in which RTD gives or receives value without directly receiving or giving equal value in exchange, include property taxes, grants, entitlements, and donations. On the accrual basis of accounting, revenues from property taxes are recognized in the fiscal year for which the taxes are levied. Revenues from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements have been met.

C. Pooled Cash and Investments

Cash from various governmental agencies is pooled for investment purposes by the County Treasurer. Interest received on the investment is prorated to individual agencies based on their average cash balances.

The County is authorized to deposit cash and invest excess funds by the California Government Code section 53648 et. seq. The funds maintained by the County are either secured by Federal depository insurance or collateralized. These pooled funds are carried at cost, which approximates market value. The funds are available for withdrawal with a 3-day notice.

D. Cash and Cash Equivalents

For purposes of the statement of cash flows, RTD considers pooled cash and investments, and deposits in financial institutions (including deposited cash) having an original maturity of three months or less to be cash and cash equivalents.

E. Investments

RTD reports investments at fair value in accordance with GASB Statement No. 72, *Fair Value Measurement and Application*. The change in fair value is included in interest and investment income in the statement of revenues, expenses, and changes in net position.

F. Property Taxes

The County assesses properties, bills for, and collects property taxes per the following schedule:

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

	Secured	Unsecured
Valuation dates	March 1	March 1
Lien/levy dates	July 1	July 1
Due dates	50 % on November 1 50 % on February 1	July 1
Delinquent as of	December 10, April 10	August 31

The term "unsecured" refers to taxes on personal property other than real estate, land and buildings. These taxes are secured by liens on the property being taxed. Property tax revenues are recognized by RTD in the fiscal year they are levied.

G. Materials and Supply Inventory

Inventory is stated at cost. Inventory held by RTD consists of spare bus parts that are consumed by RTD and are not for resale purposes.

H. Capital Assets

Property and equipment are carried at cost. RTD's capitalization threshold is \$500. Capital assets are depreciated using the straight-line method over the following estimated lives:

	Years
Buildings and structures	10 – 40 years
Revenue equipment	7 – 10 years
Service vehicles, shop, office, and other equipment	5 – 10 years

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are expensed as incurred. Such costs are included in operating expenses.

I. Accrued Vacation and Sick Leave

The accrued vacation and sick leave liability are recorded on the statement of net position and is segregated between current and long-term. Changes to the liability are recorded as an increase or decrease to operating expenses on the statement of revenues, expenses, and changes in net position.

Full-time employees accumulate vacation based on length of service. Unused accrued vacation is paid out to employees at the date of termination.

For represented employees, a maximum limit of 239 sick days may be accrued. Upon retirement or termination, an employee will be paid 100% of the value of unused sick leave based upon the wage rate of the employee at the date of retirement or termination. Employees, at their option, may elect to use these funds to pay the cost of the health insurance conversion program, receive the funds in cash, or place the funds into a deferred compensation plan.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

After a probationary period, represented employees accrue sick leave according to the following schedule:

Years of Service	Sick Leave Accrual
Less than 1 year worked	1/4 day per month
1 year through 2 years worked	1/2 day per month
2 years or more worked	1 day per month

Beginning with any accumulated balance carried over from prior contracts, which was a maximum of 203 days, the maximum accumulation of sick leave was increased by 12 days each year of the current collective bargaining agreement. The maximum limit was 215 days effective July 1, 2006; 227 days effective July 1, 2007; and 239 days effective July 1, 2008.

Provided that an employee has remaining sick leave of 480 hours, any sick leave in excess thereof can be submitted for payment in September of each year to be paid in December of that year at the wage rate of the employee at that time in cash, into a deferred compensation plan, or at any time during the year can be donated to another employee. Such donations can be made to other employees irrespective of the number of hours of sick leave on mutual agreement of the parties. Non-represented employees accrue 3.69 hours of sick leave per pay period and may not accrue more than 2080 hours of sick leave at any time.

Upon retirement, employees shall be paid 100% of the value of unused sick leave based upon the wage rate of the employee at the date of retirement. Employees, at their option, may elect to use these funds to pay the cost of the Consolidated Omnibus Budget Reconciliation Act (COBRA) health insurance conversion program, receive the funds in cash, or place the funds into a deferred compensation plan.

During the fiscal year ended June 30, 2017, the new sick leave law for part-time employees took effect. The law applies to employees who work 30 or more days within a year after they begin employment and complete at least 90 days of employment prior to taking any accrued sick time. Part-time employees accrue 1.33 hours of sick leave per pay period.

J. Classification of Revenue and Expenses

Operating revenues include activities that have the characteristics of exchange transactions such as passenger revenues and advertising revenues.

Operating expenses relate to activities with suppliers and to employees and on behalf of employees and do not result from transactions defined as capital and related financing, noncapital financing, or investing activities.

Non-operating revenues include activities that have the characteristics of non-exchange transactions and other revenue sources that are defined as non-operating revenues by GASB Statement No. 9, *Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Governmental Entities that use Proprietary Fund Accounting*, and GASB Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Examples of non-operating revenues include sales tax revenues, federal grants and investment income.

Non-operating expenses result from transactions defined as capital and related financing, non-capital financing, or investing activities.

K. Unearned Revenue

Unearned revenue arises when resources are received by RTD before they are earned.

L. Federal, State and Local Grants

Federal, state and local grants are accounted for in accordance with the purpose for which the grants are intended. Grants for operating assistance and the acquisition of equipment are recorded as revenues in the year in which the related grant eligibility requirements are met. Advances received on grants are recorded as unearned revenue until related grant eligibility requirements are met.

M. Pension Plan

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Retirement Plan for Members of the San Joaquin Regional Transit District (the Plan) and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms.

N. Postemployment Benefits Other than Pensions (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense information about the fiduciary net position of the San Joaquin Regional Transit District Retirement Plan (the Plan) and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, the Plan recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value, except for short-term investments which are carried at cost, which approximates fair value.

O. Deferred Outflows and Inflows of Resources

In addition to assets, the statement of net position or balance sheet reports a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position or fund balance that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of net position or balance sheet reports a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position or fund balance that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

P. Contributed Capital

In accordance with GASB Statement No. 33, *Accounting and Financial Reporting for Nonexchange Transactions*, capital grants are required to be included in the determination of net income. Capital contributions resulted in an increase in net position of \$22,976,880 and \$12,656,081 for the years ended June 30, 2019 and 2018, respectively.

Q. Net Position

Net position represents the residual interest in RTD's assets and deferred outflows after liabilities and deferred inflows are deducted. Net position is presented in three broad components: net investment in capital assets; restricted; and unrestricted. Net position – net investment in capital assets includes capital assets net of accumulated depreciation and outstanding principal balances of debt attributable to the acquisition, construction or improvement of those assets. Net position is restricted when constraints are imposed by the third parties or by law through constitutional provisions or enabling legislation. All other net position is unrestricted. Operating losses excluding depreciation are funded by operating and capital reserves.

R. Funding Sources

RTD's primary funding sources are as follows:

Transportation Development Act (TDA)

The TDA provides two sources of funding for public transportation, the Local Transportation Fund (LTF) and the State Transit Assistance (STA) Program.

The LTF was created to collect one fourth cent of the State's retail sales tax collected statewide, which ranges from 8.75% - 9.25%. The one fourth cent is returned by the State Board of Equalization to each county based on the amount of tax collected in that county. TDA funds are apportioned, allocated, and paid in accordance with instructions from the State and distributed through the San Joaquin Council of Governments (SJCOG) on an annual basis to RTD for specific transportation purposes. For the years ended June 30, 2019 and 2018, RTD received and spent apportionments of local transportation funds of \$22,381,519 and \$17,490,445, respectively, to meet, in part, its operating requirements.

The STA *Program* provides a second source of funding for transportation planning and mass transportation purposes as specified by California Legislation.

Proposition 1B

In November 2006, California voters approved the Highway Safety, Traffic Reduction, Air Quality, and Port Security Bond Act of 2006 to authorize \$19.925 billion of state general obligation bonds for specified purposes. RTD receives funding for capital projects under two of these categories: The Public Transportation Modernization, Improvement, and Service Enhancement Account (PTMISEA) and the Transit System Safety, Security, and Disaster Response Account (TSSSDRA).

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

For fiscal years 2019 and 2018, RTD received TSSSDRA funds of \$0 and \$361,003, respectively. RTD received PTMISEA funds of \$1,110,216 and \$0 in fiscal year 2019 and 2018, respectively.

Federal Transportation Assistance

Federal Transportation Assistance represents funding from the Federal Transit Administration (FTA) within the U.S. Department of Transportation to assist local transportation needs.

Under provisions of the Federal Transit Administration, 49 U.S.C. sections 5309 and 5307, Federal resources are made available for planning, capital and capitalized maintenance, subject to certain limitations. For the years ended June 30, 2019 and 2018, RTD received and spent federal assistance of \$6,015,139 and \$5,139,112, respectively.

S. Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements. Actual results may differ from those estimates.

T. Reclassifications

Certain amounts in the 2018 financial statements have been reclassified to conform to the 2019 presentation.

U. Implementation of New Accounting Pronouncements

During the fiscal year ended June 30, 2019, RTD adopted the following new Statements of the Governmental Accounting Standards Board (GASB):

GASB Statement No. 83

In November 2016, the Governmental Accounting Standards Board (GASB) issued Statement No. 83, "*Certain Asset Retirement Obligations.*" This Statement is effective for financial statements for fiscal year beginning after June 15, 2018 and did not impact RTD.

GASB Statement No. 88

In March 2018, the Governmental Accounting Standards Board (GASB) issued Statement No. 88, "*Certain Disclosures Related to Debt, Including Direct Borrowings and Direct Placements.*" The requirements of this Statement are effective for financial statements for the period beginning after June 15, 2018. The Statement's objective is to improve the information that is disclosed in notes to government financial statements related to debt, including direct borrowings and direct placements. It also clarifies which liabilities governments should include when disclosing information related to debt. Accordingly, RTD has updated the debt disclosures to comply with the requirements of this new Statement.

NOTE 2 CASH AND CASH EQUIVALENTS

Cash and cash equivalents as of June 30, 2019 and 2018 consisted of the following:

	2019	2018
Petty cash	\$ 450	\$ 450
Deposits with financial institutions	2,771,295	2,515,240
Cash and investments pooled with the County Treasurer	1,876,845	109,878
Total cash and cash equivalents	\$ 4,648,590	\$ 2,625,568

County Pool

The fair value of RTD's investment in the County pool is reported in the financial statements at amounts based upon RTD's pro-rata share of the fair value provided by the County Treasurer for the entire portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by the County Treasurer, which is recorded on the amortized cost basis.

Investments Authorized by the California Government Code and the Entity's Investment Policy

The table below identifies the investment types that are authorized for RTD by the California Government Code (or RTD's investment policy, where more restrictive). The table also identifies certain provisions of the California Government Code (or RTD's investment policy, where more restrictive) that address interest rate risk, credit risk, and concentration of credit risk. This table does not address investments of debt proceeds held by bond trustees that are governed by the provisions of debt agreements of RTD, rather than the general provisions of the California Government Code or RTD's investment policy.

Authorized Investment Type	Maximum Maturity	Maximum Percentage of Portfolio	Maximum Investment in One Issuer
Local Agency Bonds	5 Years	None	None
U.S. Treasury Obligations	5 Years	None	None
U.S. Agency Securities	5 Years	None	None
Banker's Acceptances	180 Days	40%	30%
Commercial Paper	270 Days	25%	10%
Negotiable Certificates of Deposit	5 Years	30%	None
Repurchase Agreements	1 Year	None	None
Reverse Repurchase Agreement	92 Days	20% of Base Value	None
Medium-Term Notes	5 Years	30%	None
Mutual Funds	N/A	20%	10%
Money Market Mutual Funds	N/A	20%	10%
Mortgage Pass-Through Securities	5 Years	20%	None
County Pooled Investment Funds	N/A	None	None
Local Agency Investment Fund (LAIF)	N/A	None	None

NOTE 2 CASH AND CASH EQUIVALENTS (CONTINUED)

Disclosure Relating to Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates.

The funds maintained by the County are either secured by Federal depository insurance or collateralized.

RTD has no formal policy relating to a specific interest rate risk.

Disclosures Related to Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The County Treasury does not have a rating provided by a nationally recognized statistical rating organization.

RTD has no formal policy relating to a specific credit risk.

Concentration of Credit Risk

The investment policy of RTD contains no limitations on the amount that can be invested in any one issuer beyond that stipulated by the California Government Code. There are no investments in any one issuer that represented 5% or more of total RTD investments as of June 30, 2019 and 2018.

Custodial Credit Risk

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The California Government Code and RTD's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits, other than the following provision: The California Government Code requires that a financial institution secure deposits made by state or local government units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies. California Law also allows financial institutions to secure deposits by pledging first true deed mortgage notes having a value of 150% of the public deposits.

NOTE 2 CASH AND CASH EQUIVALENTS (CONTINUED)

The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The California Government Code and RTD's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for investments. With respect to investments, custodial credit risk generally applies only to direct investments in marketable securities through the use of mutual funds or government investment pools (such as the County Treasury).

Fair Value Measurements

RTD categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

RTD does not hold investments that are measured at fair value on a recurring basis. RTD's deposit with the County Treasury as of June 30, 2019 and 2018 is reported at the RTD's pro-rata share of the amortized cost provided by the County for the entire portfolio. This amount approximates fair value.

NOTE 3 RECEIVABLES

Receivables at June 30, 2019 and 2018 consisted of the following:

	2019	2018
Governmental receivables:		
Measure K receivable	\$ 2,224,866	\$ 203,723
Federal grants receivable	6,682,347	11,810,173
State and local grants receivable	873,282	1,524,621
TDA funds due from SJCOG	2,298,979	980,691
Total governmental receivables	12,079,474	14,519,208
Accounts receivables from customers and users	77,737	65,752
Other receivables	145,598	427,473
Total receivables - current	\$ 12,302,809	\$ 15,012,433
Measure K receivable - non-current	\$ 9,800,000	\$ 13,600,000

Refer to Note 8 for further discussion of the Measure K receivable.

NOTE 4 CAPITAL ASSETS

Capital assets activity for the year ended June 30, 2019 was as follows:

	<u>July 1, 2018</u>	<u>Additions</u>	<u>Retirements</u>	<u>Transfers</u>	<u>June 30, 2019</u>
Capital assets not being depreciated					
Land	\$ 11,379,166	\$ -	\$ -	\$ -	\$ 11,379,166

NOTE 7 ACCRUED SICK LEAVE

The following is a summary of changes in the accrued sick leave liability for the years ended June 30, 2019 and 2018:

	<u>July 1, 2018</u>	<u>Additions</u>	<u>Reductions</u>	<u>June 30, 2019</u>	<u>Current Portion</u>
Accrued sick leave \$	960,076	\$ 560,770	\$ (436,365)	\$ 1,084,481	\$ 461,601

	<u>July 1, 2017</u>	<u>Additions</u>	<u>Reductions</u>	<u>June 30, 2018</u>	<u>Current Portion</u>
Accrued sick leave \$	958,471	\$ 469,991	\$ (468,386)	\$ 960,076	\$ 294,727

NOTE 8 LONG-TERM OBLIGATIONS

Measure K Loan Payable

In January 2015, RTD entered into a Measure K loan agreement with SJCOG. The total loan amount available to RTD is \$14,500,000. The total loan payable at June 30, 2019 and 2018 amounted to \$11,800,000 and \$13,800,000, respectively. The loan carries an interest rate of 3.815% over an 18-year period. Interest is due semiannually on March 1 and September 1. The principal balance of the loan is deducted annually starting June 30, 2015 pursuant to an agreed-upon amortization schedule. As security for the interest payments, RTD pledges anticipated allocations of Measure K renewal bus transit funds. In an event of a default in payment of any amount, the entire amount shall become due at the option of SJCOG.

Changes in the Measure K loan payable for the years ended June 30, 2019 and 2018 are as follows:

	<u>July 1, 2018</u>	<u>Additions</u>	<u>Reductions</u>	<u>June 30, 2019</u>	<u>Current Portion</u>
Measure K loan payable \$	13,800,000	\$ -	\$ (2,000,000)	\$ 11,800,000	\$ 2,000,000

	<u>July 1, 2017</u>	<u>Additions</u>	<u>Reductions</u>	<u>June 30, 2018</u>	<u>Current Portion</u>
Measure K loan payable \$	14,000,000	\$ -	\$ (200,000)	\$ 13,800,000	\$ 200,000

For the years ended June 30, 2019 and 2018, interest paid on the Measure K loan payable was \$632,525 and \$623,570, respectively.

**San Joaquin Regional Transit District
Notes to Financial Statements
Years ended June 30, 2019 and 2018**

NOTE 8 LONG TERM OBLIGATIONS (CONTINUED)

Future maturities of the Measure K loan payable at June 30, 2019 were as follows:

<u>Year Ending June 30</u>	<u>Amount</u>
2020	\$ 2,000,000
2021	2,000,000
2022	2,000,000
2023	2,000,000
2024	2,000,000
2025	1,800,000
Total	\$ <u>11,800,000</u>

Line of Credit Payable

In September 2015, RTD entered into a \$5,000,000 line of credit agreement with a bank, secured by the following collateral: inventory, chattel paper, accounts, equipment and general intangibles. In May 2017, the line of credit was increased to \$10,000,000. The interest rate on the line of credit is subject to change from time to time based on changes in an independent index which is the Wall Street Journal Prime Rate. The index is currently 3.50% per annum. The actual interest rate at June 30, 2019 and 2018 is 5.5% and 5.0%, respectively. The outstanding line of credit payable balance as of June 30, 2018 of \$5,750,000 was fully paid in FY 2019.

Changes in the line of credit payable for the years ended June 30, 2019 and 2018 are summarized as follows:

	<u>July 1, 2018</u>	<u>Additions</u>	<u>Reductions</u>	<u>June 30, 2018</u>	<u>Current Portion</u>
Line of credit payable	\$ <u>5,750,000</u>	\$ <u>4,700,000</u>	\$ <u>(10,450,000)</u>	\$ <u>-</u>	\$ <u>-</u>
	<u>July 1, 2017</u>	<u>Additions</u>	<u>Reductions</u>	<u>June 30, 2018</u>	<u>Current Portion</u>
Line of credit payable	\$ <u>3,300,000</u>	\$ <u>16,100,000</u>	\$ <u>(13,650,000)</u>	\$ <u>5,750,000</u>	\$ <u>5,750,000</u>

For the years ended June 30, 2019 and 2018, interest paid on the line of credit was \$106,153 and \$218,543, respectively.

Years ended June 30, 2019 and 2018**

NOTE 9 SELF INSURANCE CLAIMS

RTD is partially self-insured under various risk management programs. RTD is liable for claims relating to public liability and property damage up to \$1,000,000. Claims in excess of \$1,000,000 up to \$10,000,000 are insured with commercial carriers. For workers' compensation, RTD is liable for claims up to \$1,000,000. Claims in excess of \$1,000,000 up to \$10,000,000 are insured with commercial carriers. It is RTD's policy to accrue the estimated liability for the self-insured portion of these claims. The liability is estimated through an actuarial calculation using known pending claims and statistical analyses of historical claims data. Non-incremental claims adjustment expenses have been included as part of the liability.

Changes in the self-insurance claims liability for the years ended June 30, 2019 and 2018 are summarized as follows:

	<u>June 1, 2018</u>	<u>Incurred Claims</u>	<u>Claims Paid</u>	<u>June 30, 2019</u>	<u>Current Portion</u>
Workers' compensation	\$ 877,035	\$ 1,268,070	\$ (695,555)	\$ 1,449,550	\$ 1,149,603
General liability	170,778	216,077	(101,930)	284,925	142,192
Total	<u>\$ 1,047,813</u>	<u>\$ 1,484,147</u>	<u>\$ (797,485)</u>	<u>\$ 1,734,475</u>	<u>\$ 1,291,795</u>

	<u>June 1, 2017</u>	<u>Incurred Claims</u>	<u>Claims Paid</u>	<u>June 30, 2018</u>	<u>Current Portion</u>
Workers' compensation	\$ 726,360	\$ 755,996	\$ (605,321)	\$ 877,035	\$ 730,888
General liability	177,131	79,906	(86,259)	170,778	83,286
Total	<u>\$ 903,491</u>	<u>\$ 835,902</u>	<u>\$ (691,580)</u>	<u>\$ 1,047,813</u>	<u>\$ 814,174</u>

There have been no settlements in the most recent three fiscal years that have exceeded insurance limits.

NOTE 10 UNEARNED REVENUE

Unearned revenue consisted of the following at June 30, 2019 and 2018:

	<u>2019</u>	<u>2018</u>
Passenger Fares	\$ 61,178	\$ 59,097
Operating Assistance:		
STA operating grant funds	885,865	1,423,107
TDA operating grant funds	311,686	250,000
LCTOP operating grant funds	-	776,158
LTF operating grant funds	-	132,126
Other operating grant funds	528,506	496,115
Capital Assistance:

NOTE 11 DEFINED BENEFIT PENSION PLAN

A. General

Plan Description and Benefits Provided

The Retirement Plan for Members of the San Joaquin Regional Transit District, a single-employer defined benefit pension plan (the Plan), provides retirement, health, disability, and death benefits to substantially all of its administrative and contract employees. Employees who retire at or after age 62 with 5 years of credited services are entitled to a retirement benefit, payable monthly for life, equal to 2% of their monthly final compensation times the years of credited service. Final compensation is the average of the 36 consecutive months with the highest earnings. Benefits vest on reaching 5 years of service. Vested employees may retire at or after age 55 with ten years of service and receive reduced retirement benefits, subject to approval of the Retirement Board. In addition, all pension and disability benefits for those employees, who retire at any age, are increased by \$40 per month.

Effective January 1, 2017, all active non-represented and non-vested employees were transitioned from the Plan to the new 401(a) Retirement Savings Plan. See note 13 for further information.

The Plan issues a publicly available report which may be obtained by contacting RTD Retirement at 421 E Weber Ave, PO Box 201010, Stockton, California 95201.

The Plan's provisions and benefits in effect at June 30, 2019 and 2018, are summarized as follows:

	2019	2018
Benefit formula	2.0% at 62	2.0% at 62
Benefit vesting schedule	5 years service	5 years service
Benefit payments	Monthly for life	Monthly for life
Retirement age	55 - 62	55 - 62
Monthly benefits as a % of eligible compensation	2.00%	2.00%
Required employee contribution rate	18.12%	16.86%
Required employer contribution rate	23.79%	21.69%

At June 30, 2018 actuarial valuation date, the following employees were covered by the benefit terms of the Plan:

	Count
Receiving benefits	146
Entitled but not receiving benefits	32
Active employees	142

NOTE 11 DEFINED BENEFIT PENSION PLAN (CONTINUED)

Contributions

The Plan's Board has the authority for establishing and amending the funding policy. The Plan's funding policy provides for periodic employer contributions at actuarially determined rates that, expressed as percentages of annual covered payroll, are sufficient to accumulate assets to pay benefits when due. Level percentage of payroll employer contribution rates are determined using the entry age normal with frozen initial liability actuarial funding method. The contribution rate in each calendar year is based on the actuarial valuation performed the previous July 1. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

B. Net Pension Liability

RTD's net pension liability is measured as the total pension liability, less the Plan's fiduciary net position. The net pension liability of the Plan for the fiscal years ended June 30, 2019 and 2018 are measured as of June 30, 2018 and 2017, respectively, using the same annual actuarial valuation date of June 30, 2018 and 2017. A summary of principal assumptions and methods used to determine the net pension liability is shown below.

Actuarial Assumptions

The total pension liability in the June 30, 2018 and 2017 actuarial valuation were determined using the following actuarial assumptions:

	<u>2019</u>	<u>2018</u>
Valuation date	June 30, 2018	June 30, 2017
Measurement date	June 30, 2018	June 30, 2017
Actuarial assumptions:		
Discount rate	6.5% net of investment expenses (1)	6.5% net of investment expenses (1)
Inflation	2.75%	2.75%
Salary increases	3.00% plus merit/longevity increases based on entry age and service (CalPERS 1997-2011 Experience Study for Miscellaneous public agency employees)	3.00% plus merit/longevity increases based on entry age and service (CalPERS 1997-2011 Experience Study for Miscellaneous public agency employees)
Cost of living increase	0.92% per year	0.92% per year
Long term investment rate of return	6.5% net of investment expenses based on the 2.75% inflation assumption (2)	6.5% net of investment expenses based on the 2.75% inflation assumption (2)
Mortality rate table	The Society of Actuaries RP-2014 Table with Blue and White Collar adjustment for Represented and non-Represented employees, respectively, projected for future mortality improvement using Society of Actuaries mortality improvement scale MP-2014 modified to converge to its ultimate rates in 2022.	The Society of Actuaries RP-2014 Table with Blue and White Collar adjustment for Represented and non-Represented employees, respectively, projected for future mortality improvement using Society of Actuaries mortality improvement scale MP-2014 modified to converge to its ultimate rates in 2022.

(1) Assumes employer and employees will contribute actuarially determined contribution rates.

(2) The long-term asset allocation was 63% global equity, 7% real estate, 29% fixed income, and 1% cash.

NOTE 11 DEFINED BENEFIT PENSION PLAN (CONTINUED)

Discount Rate

The discount rate used to measure the total pension liability was 6.50%. The projection of cash flows used to determine the discount rate assumed that contributions from Plan members will be made at the current contribution rate and that contributions from employers will be made at contractually required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current Plan members. Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations on the pattern of cost sharing between the employer and plan members in the future. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The table below reflects the long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation. These rates of return are net of administrative expenses.

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Global Equity	54%	4.82%
Real Estate Investment Trust	6%	3.76%
Fixed Income	39%	1.47%
Cash	1%	0.06%

San Joaquin Regional Transit District

Years ended June 30, 2019 and 2018

NOTE 11 DEFINED BENEFIT PENSION PLAN (CONTINUED)

C. Changes in Net Pension Liability

The changes in the net pension liability over the measurement periods reported were as follows:

	Increase (Decrease)		
	Total Pension Liability	Plan Fiduciary Net Position	Net Pension Liability
<u>Measurement Period 2017-18</u>			
Beginning Balance	\$ 69,850,000	\$ 38,144,000	\$ 31,706,000
Change for the year:			
Service cost	1,578,000	-	1,578,000
Interest	4,525,000	-	4,525,000
Difference between expected and actual experience	739,000	-	739,000
Changes of assumptions	-	-	-
Contributions - employer	-	1,934,000	(1,934,000)
Contributions - employee	-	1,402,000	(1,402,000)
Net investment income	-	2,880,000	(2,880,000)
Benefit payments, including refunds of member contributions	(3,623,000)	(3,623,000)	-
Administrative expenses	-	(104,000)	104,000
Net changes	<u>3,219,000</u>	<u>2,489,000</u>	<u>730,000</u>
Ending balance	\$ <u>73,069,000</u>	\$ <u>40,633,000</u>	\$ <u>32,436,000</u>

	Increase (Decrease)		
	Total Pension Liability	Plan Fiduciary Net Position	Net Pension Liability
<u>Measurement Period 2016-17</u>			
Beginning Balance	\$ 65,581,000	\$ 34,201,000	\$ 31,380,000
Change for the year:			
Service cost	1,503,000	-	1,503,000
Interest	4,562,000	-	4,562,000
Changes of benefit terms (removal of 401(a) plan participants)	-	-	-
Difference between expected and actual experience	(343,000)	-	(343,000)
Changes of assumptions	2,379,000	-	2,379,000
Contributions - employer	-	1,952,000	(1,952,000)
Contributions - employee	-	1,594,000	(1,594,000)
Net investment income	-	4,308,000	(4,308,000)
Benefit payments, including refunds of member contributions	(3,832,000)	(3,832,000)	-
Administrative expenses	-	(79,000)	79,000
Net changes	<u>4,269,000</u>	<u>3,943,000</u>	<u>326,000</u>
Ending balance	\$ <u>69,850,000</u>	\$ <u>38,144,000</u>	\$ <u>31,706,000</u>

NOTE 11 DEFINED BENEFIT PENSION PLAN (CONTINUED)

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability, calculated using the discount rate for the Plan, as well as what the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower or 1- percentage point higher than the current rate:

	1% Decrease (5.50%)	Discount rate (6.50%)	1% Increase (7.50%)
Net pension liability	\$ 41,885,000	\$ 32,436,000	\$ 24,576,000

Pension Plan Fiduciary Net Position

Detailed information about the Plan's fiduciary net position is available in the separately issued Plan financial report.

D. Pension Expense and Deferred Outflows/Inflows of Resources Related to Pensions

For the years ended June 30, 2019 and 2018, RTD recognized pension expense of \$3,849,000 and \$3,635,000, respectively. At June 30, 2019 and 2018, RTD reported deferred outflows of resources and deferred inflows of resources related to pension from the following sources:

	2019		2018	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 925,000	\$ 1,304,000	\$ 949,000	\$ 2,064,000
Changes of assumptions	1,576,000	-	3,201,000	-
Net difference between actual and projected earnings on investments	-	63,000	233,000	-
Employer contributions made subsequent to the measurement date	2,367,000	-	1,934,000	-
Total	\$ 4,868,000	\$ 1,367,000	\$ 6,317,000	\$ 2,064,000

\$2,367,000 reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability for the year ended June 30, 2019.

NOTE 11 DEFINED BENEFIT PENSION PLAN (CONTINUED)

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows:

Measurement Period Ending June 30,	Deferred Outflows (Inflows) of Resources
2020	\$ 1,369,000
2021	117,000
2022	(290,000)
2023	(62,000)
2024	-
Thereafter	-
Total \$	1,134,000

Payable to the Pension Plan

At June 30, 2019 and 2018, RTD did not have an outstanding amount of contributions to the pension plan required for the years ended June 30, 2019 and 2018, respectively.

NOTE 12 OTHER POSTEMPLOYMENT BENEFITS (OPEB)

Plan Description

The Retirement Plan for Members of the San Joaquin Regional Transit District, a single-employer defined benefit pension plan (the Plan), also provides postretirement health benefits to substantially all of its administrative and contract employees.

Benefits Provided

For retirements before 8/1/2010, retirees with at least 30 years of service retiring after age 55, or those with at least 25 years of service retiring after age 62 receive the same medical, dental and vision coverage for themselves and their spouses as active employees. Retirees with 25 years of service retiring before age 62 will receive full benefits upon attainment of age 62, if they have paid for coverage for themselves and their spouses from the date of retirement.

For retirements after 8/1/2010, retirees after age 55 and 25 years of service, the retiree and spouse receive the same medical, dental and vision benefits as current active employees. The retiree pays a fixed dollar amount of the premiums, equal to the same percentage used to calculate the retiree's pension benefit times the active contribution percentage of the premium amount at retirement. The retiree's contribution remains fixed.

NOTE 12 OTHER POSTEMPLOYMENT BENEFITS (OPEB) (CONTINUED)

Funding Policy

The Plan's Board has the authority for establishing and amending the funding policy. The Plan's funding policy provides for periodic employer contributions at actuarially determined rates that, expressed as percentages of annual covered payroll, are sufficient to accumulate assets to pay benefits when due. Level percentage of payroll employer contribution rates are determined using the entry age normal with frozen initial liability actuarial funding method. The contribution rate in each calendar year is based on the actuarial valuation performed the previous July 1.

Net OPEB Liability

The Plan's net OPEB liability was measured as of June 30, 2018, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of June 30, 2018.

Employees Covered by Benefit Terms

At June 30, 2018 (the actuarial valuation date), the following employees were covered by the benefit terms:

Category	Count
Inactive employees or beneficiaries currently receiving benefit payments	56
Inactive employees entitled to but not yet receiving benefit payment	-
Active employees	142

Actuarial Methods and Assumptions

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedules of funding progress, presented as required supplementary information following the notes to the financial statements, present multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

NOTE 12 OTHER POSTEMPLOYMENT BENEFITS (OPEB) (CONTINUED)

Actuarial Methods and Assumptions (Continued)

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations on the pattern of cost sharing between the employer and plan members in the future. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The total OPEB liability for the June 30, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified.

Inflation	2.75%
Salary increases	3.0% plus merit/longevity increases based on entry age and service
Discount rate	6.50% net of investment expenses
Healthcare trend rates	Non-Medicare - 7.25% for 2020, decreasing to an ultimate rate of 4.0% in 2076 and later years Medicare - 6.3% for 2020, decreasing to an ultimate rate of 4.0% in 2076 and later years
Mortality rate	The Society of Actuaries RP-2014 Table with Blue and White Collar adjustment for Represented and non-Represented employees, respectively, projected for future mortality improvement using Society of Actuaries mortality improvement scale MP-2017

NOTE 12 OTHER POSTEMPLOYMENT BENEFITS (OPEB) (CONTINUED)

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) was used and developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of the arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Global Equity	63%	4.82%
Real Estate Investment Trust	7%	3.76%
Fixed Income	29%	1.47%
Cash	1%	0.06%

Discount Rate

The discount rate used to measure the total OPEB liability was 6.50%. The projection of cash flows used to determine the discount rate assumed that the employer and members contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to cover all future OPEB payments. Therefore, the discount rate was determined to be the long-term expected rate of return on OPEB plan investments

NOTE 12 OTHER POSTEMPLOYMENT BENEFITS (OPEB) (CONTINUED)

Change in the Net OPEB Liability

The changes in the net OPEB liability for the measurement period 2017-18 is as follows:

	Increases (Decreases)		
	Total OPEB Liability	Plan Fiduciary Net Position	Net OPEB Liability
Balance at June 30, 2017	\$ 12,788,000	\$ 5,039,000	\$ 7,749,000
Changes for the year:			
Service cost	266,000	-	266,000
Interest on the total OPEB liability	828,000	-	828,000
Difference between actual and expected experience	(570,000)	-	(570,000)
Changes in assumptions	-	-	-
Contributions - employer	-	371,000	(371,000)
Contributions - employer (Implied Subsidy benefit payments)	-	122,000	(122,000)
Contributions - member	-	330,000	(330,000)
Net investment income	-	424,000	(424,000)
Benefit payments - cash	(507,000)	(507,000)	-
Benefit payments - Implied Subsidy	(122,000)	(122,000)	-
Administrative expense	-	(6,000)	6,000
Net Changes	(105,000)	612,000	(717,000)
Balance at June 30, 2018 (measurement date)	\$ 12,683,000	\$ 5,651,000	\$ 7,032,000

Sensitivity of the net OPEB liability to changes in the discount rate

The total OPEB liability of the Plan, as well as what the Plan's net OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (5.50%) or one percentage point higher (7.50%) follows:

	1% Decrease 5.50%	Discount Rate 6.50%	1% Increase 7.50%
Net OPEB liability	\$ 8,976,000	\$ 7,032,000	\$ 5,454,000

NOTE 12 OTHER POSTEMPLOYMENT BENEFITS (OPEB) (CONTINUED)

Sensitivity of the net OPEB liability to changes in the healthcare cost trend rates

The total OPEB liability of the Plan, as well as what the Plan's net OPEB liability would be if it were calculated using healthcare cost trend rates that are one percentage point lower or one percentage point higher than current healthcare cost trend rates follows:

	<u>1% Decrease</u>	<u>Healthcare Cost Trend Rate</u>	<u>1% Increase</u>
Net OPEB liability	\$ 5,318,000	\$ 7,032,000	\$ 9,168,000

OPEB Expense and Deferred Inflows and Outflows of Resources Related to OPEB

For the year ended June 30, 2019, the Plan recognized OPEB expense of \$412,925. At June 30, 2019, the Plan reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Contributions subsequent to measurement date	\$ 584,000	\$ -
Differences between actual and expected experience	42,000	481,000
Change of assumptions	626,000	-
Net difference between actual and projected earnings on investments	-	274,000
	<u>\$ 1,252,000</u>	<u>\$ 755,000</u>

NOTE 12 OTHER POSTEMPLOYMENT BENEFITS (OPEB) (CONTINUED)

\$584,000 reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ending June 30, 2020.

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Fiscal Year Ended June 30	Deferred Outflows/(Inflows) of Resources
2020	\$ (22,000)
2021	(22,000)
2022	(24,000)
2023	46,000
2024	(29,000)
Thereafter	(36,000)
	<u>\$ (87,000)</u>

Payable to the OPEB Plan

At June 30, 2019, RTD did not have an outstanding amount of contributions to the OPEB plan required for the year ended June 30, 2019.

NOTE 13 401(a) RETIREMENT SAVINGS PLAN

Plan Description

In October 2017, RTD's Board of Directors approved to transition all active employees who are non-represented and non-vested in the defined benefit pension plan as of December 31, 2017 to the SJRTD 401(a) Retirement Savings Plan (the Plan) effective January 1, 2017. The Plan is a profit-sharing defined contribution plan under section 401(a) of the Internal Revenue Code.

Eligible Employees

All non-represented future new hires are eligible to participate in the Plan. Current represented employees and non-represented vested employees will continue participation in the defined benefit pension plan, which will remain open for represented new hires.

Eligible employees are those employees of RTD, provided they are not considered as excluded employees under the terms of the Plan. The Plan excludes from participation the following categories of employees:

- Employees covered under a collective bargaining agreement
- Employees vested in the RTD Defined Benefit Plan
- Leased employees
- Certain part-time, seasonal, and temporary employees (as defined under the Plan)

NOTE 13 401(a) RETIREMENT SAVINGS PLAN (CONTINUED)

Contributions

Under the Plan, RTD makes contributions to the Plan on behalf of the employee. Plan participants are eligible to make “pick-up” contributions. Such contributions are made by the employee and “picked-up” and treated as an employer contribution. As a pick-up contribution, the employee makes a contribution to the Plan and RTD picks up the related tax liability. Employer contributions may also be made on behalf of eligible participants equal to 10% of Plan compensation. Total contributions are subject to Internal Revenue Service (IRS) maximum limits. Participants may also rollover amounts into the Plan from other qualified retirement plans.

Total contributions to the Plan for the years ended June 30, 2019 and 2018 amounted to \$275,479 and \$236,556, respectively.

Vesting

Plan participants are immediately 100% vested in pick-up contributions and any rollover contributions. Participants become vested in the employer contributions upon completion of three years of vesting service. Certain exceptions to the vesting schedule are specified in the Plan Document.

Distributions

Upon termination of service, a participant with a vested account balance in excess of \$5,000 may elect to receive in one of the following: (a) a lump-sum amount equal to the entire vested account balance, (b) partial distribution if permitted by Plan Administrator, or (c) rollover all (or any portion) of distribution to another qualified plan. If the vested account balance is \$5,000 or less, a participant may elect to receive a lump-sum amount or may elect to rollover the distribution to another qualified plan.

NOTE 14 LEASES

RTD leases certain parking space, building space, and other equipment. Future minimum lease payments under the said leases at June 30, 2019 were as follows.

<u>Year Ending June 30</u>	<u>Amount</u>
2020	\$ 8,775
2021	8,775
2022	8,775
2023	8,775
Total \$	<u>35,100</u>

Total lease payments for the years ended June 30, 2019 and 2018 amounted to \$63,048 and \$59,206, respectively.

NOTE 15 COMMITMENTS AND CONTINGENCIES

Lawsuits

RTD is involved in various claims and litigations arising in the ordinary course of its operations. RTD management, after consultation with RTD's General Counsel, believes that they have sufficient insurance coverage so that resolution of such matters will not have a material effect on RTD's financial position or results of operations as of and for the year ended June 30, 2019.

Federal and State Grant Programs

RTD participates in Federal and State grant programs. These programs were audited in accordance with the provisions of the Uniform Guidance and applicable state requirements. No cost disallowance is expected as a result of these audits; however, these programs may be subject to further examination by the grantors. Awards which may be disallowed by the granting agencies, if any, cannot be determined at this time. Management expects such amounts, if any, to be immaterial.

Construction Commitments

RTD has entered into various contracts for the purchase of materials, professional and non-professional services for construction projects. At June 30, 2019 and 2018, construction commitments total \$1,368,273 and \$4,006,877, respectively.

NOTE 16 SUBSEQUENT EVENT

RTD has evaluated events subsequent to June 30, 2019 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through December 31, 2019, the date the financial statements were available to be issued. Based upon this evaluation, it was determined that, no subsequent events occurred that require recognition or additional disclosure in the financial statements.

STATISTICAL SECTION

San Joaquin Regional Transit District Description of Statistical Section Contents

This part of the San Joaquin Regional Transit District's (RTD) comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements and required supplementary information says about the RTD's overall financial health.

Financial Trends

These schedules contain trend information to help the reader understand how the RTD's financial performance and well-being have changed over time.

Revenue Capacity

These schedules contain information to help the reader assess the RTD's most significant operating revenue, passenger fares.

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which RTD's financial activities take place and helps make comparisons over time with other governments.

Operating Information

These schedules contain contextual information about RTD's operations and resources to assist readers in using financial statement information to understand and assess RTD's economic condition.

Sources: Unless otherwise noted, the information in these schedules is derived from RTD's comprehensive annual financial reports for the relevant year.

Fare Revenue

RTD collects fares from passengers to ride the bus. The current fare schedule is available on page 65.

Federal Transportation Administration (FTA) Section 5304

Purpose

This program provides funding and procedural requirements for multimodal transportation planning in metropolitan areas and states that is cooperative, continuous and comprehensive, resulting in long-range plans and short-range programs of transportation investment priorities. The planning programs are jointly administered by FTA and the Federal Highway Administration (FHWA), which provides additional funding.

Statutory References

- 49 U.S.C. Section 5303 & 5304 / FAST Section 3003 Metropolitan & Statewide Transportation Planning
- 49 U.S.C. Section 5305 – Planning Programs

Eligible Recipients

States and Metropolitan Planning Organizations

Eligible Activities

Eligible activities include developing transportation plans and programs, planning, designing and evaluating a public transportation project, and conducting technical studies related to public transportation.

FTA Section 5307

Purpose

The Urbanized Area Formula Funding program (49 U.S.C. 5307) makes Federal resources available to urbanized areas and to Governors for transit capital and operating assistance and for transportation related planning in urbanized areas. An urbanized area is a Census-designated area with a population of 50,000 or more as determined by the U.S. Department of Commerce, Bureau of the Census.

Statutory References

49 U.S.C. Section 5307 and 5340 / FAST ACT Sections 3004, 30149 U.S.C. Section 5305 – Planning Programs

**San Joaquin Regional Transit District
Operating Information (Continued)
Available Funding Sources (Continued)**

Eligible Recipients

Funding is made available to designated recipients, which must be public bodies with the legal authority to receive and dispense Federal funds. Governors, responsible local officials and publicly owned operators of transit services are required to designate a recipient to apply for, receive, and dispense funds for urbanized areas pursuant to 49 U.S.C. 5307(a)(2). The Governor or Governor's designee is the designated recipient for urbanized areas between 50,000 and 200,000.

Eligible Activities

Eligible activities include planning, engineering, design and evaluation of transit projects and other technical transportation-related studies; capital investments in bus and bus-related activities such as replacement of buses, overhaul of buses, rebuilding of buses, crime prevention and security equipment and construction of maintenance and passenger facilities; and capital investments in new and existing fixed guideway systems including rolling stock, overhaul and rebuilding of vehicles, track, signals, communications, and computer hardware and software. All preventive maintenance and some Americans with Disabilities Act complementary paratransit service costs are considered capital costs.

For urbanized areas with populations less than 200,000, operating assistance is an eligible expense. For urbanized areas with 200,000 in population and over, funds are apportioned and flow directly to a designated recipient selected locally to apply for and receive Federal funds. For urbanized areas under 200,000 in population, the funds are apportioned to the Governor of each state for distribution.

FTA Section 5310

Purpose

This program improves mobility for seniors and individuals with disabilities by removing barriers to transportation service and expanding transportation mobility options. This program supports transportation services planned, designed, and carried out to meet the special transportation needs of seniors and individuals with disabilities in all areas – large urbanized (over 200,000), small urbanized (50,000-200,000), and rural (under 50,000). Eligible projects include both traditional capital investment and nontraditional investment beyond the Americans with Disabilities Act (ADA) complementary paratransit services.

Statutory References

49 U.S.C. Section 5310 / FAST Act Section 3006

Eligible Recipients

Formula funds are apportioned to direct recipients:

- States for rural and small urban areas (small UZAs) and designated recipients chosen by the Governor of the State for large urban areas (large UZAs); or
- State or local governmental entities that operates a public transportation service.

Eligible Activities

- At least 55 percent of program funds must be used on capital or “traditional” 5310 projects. Examples include:
 - Buses and vans; wheelchair lifts, ramps, and securement devices; transit-related information technology systems including scheduling/routing/one-call systems; and mobility management programs.
 - Acquisition of transportation services under a contract, lease, or other arrangement. Both capital and operating costs associated with contracted service are eligible capital expenses. User-side subsidies are considered one form of eligible arrangement. Funds may be requested for contracted services covering a time period of more than one year. The capital eligibility of acquisition of services as authorized in 49 U.S.C. 5310(b) (4) is limited to the Section 5310 program.
- The remaining 45 percent is for other “nontraditional” projects. Under MAP-21, the program was modified to include projects eligible under the former 5317 New Freedom program, described as: Capital and operating expenses for new public transportation services and alternatives beyond those required by the ADA, designed to assist individuals with disabilities and seniors. Examples include:
 - Travel training; volunteer driver programs; building an accessible path to a bus stop including curb-cuts, sidewalks, accessible pedestrian signals or other accessible features; improving signage, or way-finding technology; incremental cost of providing same day service or door-to-door service; purchasing vehicles to support new accessible taxi, rides sharing and/or vanpooling programs; and mobility management.

FTA Section 5311

Purpose

This program provides capital, planning, and operating assistance to states and federally recognized Indian tribes to support public transportation in rural areas with populations less than 50,000, where many residents often rely on public transit to reach their destinations. It also provides funding for state and national training and technical assistance through the Rural Transportation Assistance Program.

Statutory References

- 49 U.S.C. Section 5311 / Fixing America’s Surface Transportation Act (FAST) Section 3007

Eligible Recipients

- States, Indian tribes or Alaskan Native villages, groups or communities identified by the Bureau of Indian Affairs (BIA)
- Subrecipients: State or local government authorities, nonprofit organizations, operators of public transportation or intercity bus service that receives funds indirectly through a recipient.

Eligible Activities

Planning, capital, operating, job access, and reverse commute projects, and the acquisition of public transportation services

FTA Section 5312

Purpose

This program advances innovative public transportation research and development.

Statutory References

49 U.S.C. Section 5312 / MAP-21

Eligible Recipients

Eligible recipients are Federal Government departments, agencies, and instrumentalities of the Government, including Federal laboratories; State and local governmental entities; providers of public transportation; private or non-profit organizations; institutions of higher education; and technical and community colleges.

Eligible Activities

- Research; Innovation and Development; Demonstration, Deployment, and Evaluation; Low or No Emission Vehicle Component Testing; Transit Cooperative Research Program (TCRP).

FTA Section 5339

Purpose

The Grants for Buses and Bus Facilities program (49 U.S.C. 5339) makes Federal resources available to States and designated recipients to replace, rehabilitate and purchase buses and related equipment and to construct bus-related facilities including technological changes or innovations to modify low or no emission vehicles or facilities. Funding is provided through formula allocations and competitive grants. A sub-program provides competitive grants for bus and bus facility projects that support low and zero-emission vehicles.

Statutory References

49 U.S.C. Section 5337 / FAST Section 3017

Eligible Recipients

Eligible recipients include designated recipients that operate fixed route bus service or that allocate funding to fixed route bus operators; and State or local governmental entities that operate fixed route bus service that are eligible to receive direct grants under 5307 and 5311.

Subrecipients: An eligible recipient that receives a grant under the formula or discretionary programs may allocate amounts from the grant to subrecipients that are public agencies or private nonprofit organizations engaged in public transportation.

Eligible Activities

- Capital projects to replace, rehabilitate, and purchase buses, vans, and related equipment, and to construct bus-related facilities, including technological changes or innovations to modify low or no emission vehicles or facilities.

California Air Resources Board (CARB) Zero-Emission Truck and Bus Pilot Commercial Deployment Program

Purpose

This project is intended to help accelerate the deployment of a variety of commercially available medium- and heavy-duty zero-emission vehicles by placing a significant number of zero- and near zero emission buses and freight and delivery trucks¹ in strategic truck and bus “hubs.” This project will provide benefits to disadvantaged communities by ensuring that funds are awarded to pilot projects located within, or directly benefitting, disadvantaged communities² across the state.

Statutory References

This Solicitation is issued under the Assembly Bill 118 (AB 118) AQIP and the Low Carbon Transportation Green Gas Reduction Fund (GGRF) Investments, with all project funds coming from the GGRF. The project is intended to fund pilot vehicle deployments that reduce greenhouse gas (GHG) emissions and provide other environmental and economic co-benefits to disadvantaged communities as well as further the purposes of AB 32 (Nunez, Chapter 488, Statutes of 2006) by addressing the challenges facing wide-spread commercialization (i.e., economies of scale production, workforce training and vehicle maintenance and repair, and refueling infrastructure).

Eligible Recipients

This competitive Solicitation is open to transit agencies, school districts, local air districts, or other California-based public agencies, as well as California-based non-profit organizations that demonstrate the requisite administrative and technical expertise.

Eligible Activities

The projects covered by this Solicitation require the deployment of zero- or near zero-emission transit buses, school buses, and delivery trucks that achieve significant reductions in GHG and co-pollutant emissions. To be eligible for funding under this Solicitation, vehicle technologies included in the project application must have already been demonstrated and must be commercially available (defined below) including technologies that are in the early stages of commercial deployment.

Congestion Mitigation and Air Quality (CMAQ)

Purpose

The FAST Act continued the CMAQ program to provide a flexible funding source to State and local governments for transportation projects and programs to help meet the requirements of the Clean Air Act. Funding is available to reduce congestion and improve air quality for areas that do not meet the National Ambient Air Quality Standards for ozone, carbon monoxide, or particulate matter (nonattainment areas) and for former nonattainment areas that are now in compliance (maintenance areas).

Statutory References

FAST Act § 1114; 23 U.S.C. 149

Eligible Recipients

As under MAP-21, the FAST Act directs FHWA to apportion funding as a lump sum for each State then divide that total among apportioned programs. Once each State's combined total apportionment is calculated, funding is set-aside for the State's CMAQ Program.

Eligible Activities

Funds may be used for a transportation project or program that is likely to contribute to the attainment or maintenance of a national ambient air quality standard, with a high level of effectiveness in reducing air pollution, and that is included in the metropolitan planning organization's (MPO's) current transportation plan and transportation improvement program (TIP) or the current state transportation improvement program (STIP) in areas without an MPO.

The FAST Act added eligibility for verified technologies for non-road vehicles and non-road engines that are used in port-related freight operations located in ozone, PM10, or PM2.5 nonattainment or maintenance areas funded in whole or in part under 23 U.S.C. or chapter 53 of 49 U.S.C. [23 U.S.C. 149(b)(8)(A)(ii)]

The Act also specifically makes eligible the installation of vehicle-to-infrastructure communications equipment. [23 U.S.C. 149(b)(9)]

The FAST Act continues eligibility for electric vehicle and natural gas vehicle infrastructure and adds priority for infrastructure located on the corridors designated under 23 U.S.C. 151. [23 U.S.C. 149(c)(2)]

The FAST Act amended the eligible uses of CMAQ funds set aside for PM2.5 nonattainment and maintenance areas. PM2.5 set-aside funds may be used to reduce fine particulate matter emissions in a PM2.5 nonattainment or maintenance area, including—

- diesel retrofits;
- installation of diesel emission control technology on nonroad diesel equipment or on-road diesel equipment that is operated on a highway construction projects ; and
- the most cost-effective projects to reduce emissions from port-related landside nonroad or on- road equipment that is operated within the boundaries of the area. [23 U.S.C. 149(k)(2) & (4)]

Transit and Intercity Rail Capital Program (TIRCP)

Purpose

The goal of the TIRCP is to provide monies to fund transformative capital improvements that modernize California's intercity rail, bus, ferry and rail transit systems to achieve the following objectives:

- Reduction in greenhouse gas emissions;
- Expand and improve rail service to increase ridership;

**San Joaquin Regional Transit District
Operating Information (Continued)
Available Funding Sources (Continued)**

- Integrate the rail service of the state's various rail operations, including integration with the high-speed rail system; and
- Improve safety

Statutory References

The Transit and Intercity Rail Capital Program (TIRCP) was created by Senate Bill (SB) 862 (Chapter 36, Statutes of 2014) and modified by Senate Bill 9 (Chapter 710, Statutes of 2015) to provide grants from the Greenhouse Gas Reduction Fund to fund transformative capital improvements that will modernize California's intercity, commuter, and urban rail systems, and bus and ferry transit systems to reduce emissions of greenhouse gases by reducing congestion and vehicle miles traveled throughout California.

Eligible Recipients

Eligible applicants must be public agencies, including joint powers agencies, that operate or have planning responsibility for existing or planned regularly scheduled intercity or commuter passenger rail service (and associated feeder bus service to intercity rail services), urban rail transit service, or bus or ferry transit service (including commuter bus services and vanpool services). Public agencies include construction authorities, transportation authorities, and other similar public entities created by statute. An applicant assumes responsibility and accountability for the use and expenditure of program funds. Applicants must comply with all relevant federal and state laws, regulations, policies, and procedures.

Eligible Activities

Eligible applicants may submit project applications individually or as part of a joint application. In order to be eligible for funding under this program, a project must demonstrate that it will achieve a reduction in greenhouse gas emissions using the CARB quantification methodology.

Projects eligible for funding under the program include, but are not limited to, the following:

1. Rail capital projects, including the acquisition of rail cars and locomotives, and the facilities to support them, that expand, enhance, or improve existing rail systems and connectivity to existing and future transit systems, including the high-speed rail system.
2. Intercity, commuter, and urban rail projects that increase service levels, improve reliability, or decrease travel times. These projects may include infrastructure access payments to host railroads in lieu of capital investments, efforts to improve existing rail service effectiveness with a focus on improved operating agreements, schedules, and minor capital investments that are expected to generate increased ridership, as well as larger scale projects designed to achieve significantly larger benefits.
3. Rail, bus, and ferry integration implementation, including: integrated ticketing and scheduling systems and related capital investments (including integration with bus or ferry operators); projects enabling or enhancing shared-use corridors without increasing net air pollution (both multi-operator passenger only corridors as well as passenger-freight corridors); related planning efforts focused on, but not limited to, delivery of integrated service not requiring major capital investment; and other service integration initiatives.
4. Bus rapid transit and other bus and ferry transit investments (including vanpool services operated as public transit) to increase ridership and reduce greenhouse gas emissions, including capital investments, as a component implementing transit effectiveness studies, that will contribute to restructured and enhanced service.

Local Property Tax

RTD receives property tax revenues for properties within the County in accordance with the Revenue and Taxation Code, Section 97.

Low Carbon Transit Operations Program (LCTOP)

Purpose

The LCTOP was created to provide operating and capital assistance for transit agencies to reduce greenhouse gas emission and improve mobility, with a priority on serving disadvantaged communities.

This program will be administered by the California Department of Transportation (Caltrans) in coordination with Air Resource Board (ARB) and the State Controller's Office (SCO). Caltrans is responsible to ensure that the statutory requirements of the program are met in terms of project eligibility, greenhouse reduction, disadvantaged community benefit, and other requirements of the law.

Statutory References

- Transit, Affordable Housing, and Sustainable Communities Program established by the California Legislature in 2014 by Senate Bill 862. Senate Bill 862 continuously appropriates five percent of the annual auction proceeds in the Greenhouse Gas Reduction Fund (Fund) for LCTOP, beginning in 2015-16.

Eligible Recipients

California transit agencies

Eligible Activities

Approved projects in LCTOP will support new or expanded bus or rail services, expand intermodal transit facilities, and may include equipment acquisition, fueling, maintenance and other costs to operate those services or facilities, with each project reducing greenhouse gas emissions. For agencies whose service area includes disadvantaged communities, at least 50 percent of the total moneys received shall be expended on projects that will benefit disadvantaged communities.

Active Transportation Program (ATP)

Purpose

ATP legislation defines the program's purpose as encouraging increased use of active modes of transportation, such as biking and walking.

Statutory References

The Active Transportation Program (ATP), created by Senate Bill 99 (Chapter 359, Statutes of 2013) and Assembly Bill 101 (Chapter 354, Statutes of 2013), consolidated several federal and state transportation programs to focus on making California a national leader in active transportation.

Eligible Recipients

The following entities, within the State of California, are eligible to apply for ATP funds:

- Local, Regional or State Agencies. Examples include city, county, MPO*, and Regional Transportation Planning Agency.
- Caltrans.* Caltrans nominated projects must be coordinated and aligned with local and regional priorities.
- Transit Agencies. Any agency responsible for public transportation that is eligible for funds under the Federal Transit Administration.
- Natural Resources or Public Land Agencies. Federal, Tribal, State, or local agency responsible for natural resources or public land administration. Examples include:
 - State or local park or forest agencies
 - State or local fish and game or wildlife agencies.
 - Department of the Interior Land Management Agencies.
 - U.S. Forest Service.
- California Transportation Commission
- Public schools or school districts.
- Tribal Governments – federally recognized Native American Tribes.
- Private nonprofit tax exempt organizations may apply for projects eligible for Recreational
- Trail Program funds recreational trails and trailheads, park projects that facilitate trail linkages or connectivity to non-motorized corridors, and conversion of abandoned railroad corridors to trails. Projects must benefit the general public, not only a private entity.
- Any other entity with responsibility for oversight of transportation or recreational trails that the Commission determines to be eligible.

Eligible Activities

All projects eligible for programming must be selected through a competitive process and must meet one or more of the ATP program goals that are as follows:

- Increase the proportion of trips accomplished by biking and walking.
- Increase safety and mobility of non-motorized users.
- Advance the active transportation efforts of regional agencies to achieve Greenhouse Gas (GHG) Reduction (GHGR) goals as established pursuant to Senate Bill 375 and Senate Bill 391.
- Enhance public health, including reduction of childhood obesity through the use of programs including, but not limited to, projects eligible for Safe Routes to School Program (SRTS) funding.
- Ensure that disadvantaged communities fully share in the benefits of the program.
- Provide a broad spectrum of projects to benefit many types of active transportation users.

All eligible projects must apply with an application for one of the following project categories: infrastructure projects, plans, and non-infrastructure projects.

Measure K

Measure K is the half-cent sales tax dedicated to transportation projects in San Joaquin County. With its original passage in November 1990, Measure K began laying the groundwork for two decades of funding for a system of improved highways and local streets, new passenger rail service, regional and inter-regional bus routes, park-and-ride lots, new bicycle facilities, and railroad crossings. Its innovative multimodal approach to transportation clearly distinguishes Measure K from other countywide sales tax programs.

On November 7, 2006 San Joaquin County voters decided to extend Measure K for an additional 30 years. The renewal of Measure K is estimated to generate \$2.552 billion for the transportation programs identified in the Measure K Expenditure Plan.

The categorical allocations of Measure K include local street repairs and roadway safety (35%), congestion relief projects (32.5%), railroad crossing safety projects (2.5%), and passenger rail, bus, and bicycles (30%), which includes dedicated funding for bus rapid transit and safe routes to schools.

Pacific Gas & Electric Company's (PG&E) EV Charging Infrastructure Program (Priority Review Project)

Purpose

Pursuant to the passing of Senate Bill 350, PG&E filed a transportation electrification (TE) application focused on accelerating electrification in the medium and heavy-duty sectors. The goal of this pilot is to lower total cost of ownership for electric fleet vehicles, as compared to fossil fuel vehicles, by addressing two critical barriers: (i) upfront infrastructure costs; and (ii) higher ongoing fuel costs of electricity compared to gas.

Statutory References

California Senate Bill 350

Eligible Recipients

California Transit Agencies.

Eligible Activities

PG&E will partner with one transit agency in a Disadvantaged Community to provide infrastructure and tools to support the deployment of 2-10 electric transit buses.

Proposition 1B

In November 2006, California voters approved the Highway Safety, Traffic Reduction, Air Quality, and Port Security Bond Act of 2006 to authorize \$19.925 billion of state general obligation bonds for specified purposes. RTD receives funding for capital projects under two of these categories: The Public Transportation Modernization, Improvement, and Service Enhancement Account (PTMISEA) and the Transit System Safety, Security, and Disaster Response Account (TSSSDRA).

Public Transportation Modernization, Improvement, and Service Enhancement Account Program (PTMISEA)

Purpose

The Public Transportation Modernization, Improvement, and Service Enhancement Account Program (PTMISEA) was created by Proposition 1B, the Highway Safety, Traffic Reduction, Air Quality, and Port Security Bond Act of 2006. Of the \$19.925 billion available to Transportation, \$3.6 billion dollars was allocated to PTMISEA to be available to transit operators over a ten-year period. Funds in this account are appropriated annually by the Legislature to the State Controller's Office (SCO) for allocation in accordance with Public Utilities Code formula distributions: 50% allocated to Local Operators based on fare-box revenue and 50% to Regional Entities based on population.

Statutory References

The Highway Safety, Traffic Reduction, Air Quality and Port Security Bond Act of 2006, approved by the voters as Proposition 1B at the November 7, 2006 general election, authorizes the issuance of \$19,925,000,000 in general obligation bonds for specified purposes, including grants for transit system safety, security and disaster response projects.

Section 8879.23 of the California Government Code creates the Highway Safety, Traffic Reduction, Air Quality and Port Security Fund of 2006 in the State Treasury. Section 8879.23(h) directs that \$1,000,000,000 be deposited in the Transit System Safety, Security and Disaster Response Account. Senate Bill 88 (SB 88) was signed by the Governor and chaptered into law on August 24, 2007. SB 88 implements the provisions of the Highway Safety, Traffic Reduction, Air Quality and Port Security Bond Act of 2006.

Eligible Recipients

California Transit Agencies.

Eligible Activities

PTMISEA funds may be used for transit rehabilitation, safety or modernization improvements, capital service enhancements or expansions, new capital projects, bus rapid transit improvements, or rolling stock (buses and rail cars) procurement, rehabilitation or replacement.

Transit System Safety, Security, and Disaster Response Account (TSSSDRA)

Purpose

To be used for capital projects that provide increased protection against a security and safety threat, and for capital expenditures to increase the capacity of transit operators, including waterborne transit operators, to develop disaster response transportation systems that can move people, goods, and emergency personnel and equipment in the aftermath of a disaster impairing the mobility of goods, people, and equipment.

**San Joaquin Regional Transit District
Operating Information (Continued)
Available Funding Sources (Continued)**

Statutory References

The Highway Safety, Traffic Reduction, Air Quality and Port Security Bond Act of 2006, approved by the voters as Proposition 1B at the November 7, 2006 general election, authorizes the issuance of \$19,925,000,000 in general obligation bonds for specified purposes, including grants for transit system safety, security and disaster response projects.

Section 8879.23 of the California Government Code creates the Highway Safety, Traffic Reduction, Air Quality and Port Security Fund of 2006 in the State Treasury. Section 8879.23(h) directs that \$1,000,000,000 be deposited in the Transit System Safety, Security and Disaster Response Account. Senate Bill 88 (SB 88) was signed by the Governor and chaptered into law on August 24, 2007. SB 88 implements the provisions of the Highway Safety, Traffic Reduction, Air Quality and Port Security Bond Act of 2006.

Eligible Recipients

California Transit Agencies.

Eligible Activities

Proceeds shall be available for capital projects that provide increased protection against a security and safety threat, and for capital expenditures to increase the capacity of transit operators, including waterborne transit operators, to develop disaster response transportation systems that move people, goods, and emergency personnel and equipment in the aftermath of a disaster impairing the mobility of goods, people, and equipment. The Transit System Safety, Security & Disaster Response Account (TSSSDRA) funds are for capital projects that increase protection against a security and safety threat, and develop a disaster response transportation system that can move people, goods, emergency personnel and equipment in the aftermath of a disaster.

Transportation Development Act (TDA)

The TDA is a dedicated funding source available to public transit, and it is the primary source of RTD operating revenues. The TDA provides two sources of funding for public transportation, the Local Transportation Fund (LTF) and the State Transit Assistance (STA) funding. The LTF and STA receive revenues through gasoline and sales taxes within the County, however these funds are available to the State in times of fiscal crisis, and are not as reliable in a declining economy.

The LTF is funded from one quarter of one cent of the six cents in state sales tax collected per dollar of retail receipts. The allocated portion for LTF is returned to each county based on the amount of tax dollars collected in that County. The State distributes the LTF to available jurisdictions (incorporated cities and the County) based on population. RTD currently receives the full apportionment of LTF from the City of Stockton for SMA operations. RTD also receives the full apportionment of the County LTF for operations of the Hopper, Intercity, and Dial-A-Ride services.

The STA is funded from the statewide sales tax on motor vehicle fuels. The State allocates these funds based on a ridership and operations formula for each County. The formula allocates 50% of the funds according to ridership and the remaining according to transit operator revenues. STA revenues are eligible for both operating and capital expenditures.

**San Joaquin Regional Transit District
Operating Information (Continued)
Available Funding Sources (Continued)**

The Road Repair and Accountability Act of 2017, Senate Bill (SB) 1 (Chapter 5, Statutes of 2017), signed by the Governor on April 28, 2017, includes a program that will provide additional revenues for transit infrastructure repair and service improvements. This investment in public transit is referred to as the State of Good Repair program. This program provides funding of approximately \$105 million annually to the State Transit Assistance (STA) Account. These funds are to be made available for eligible transit maintenance, rehabilitation, and capital projects.

Hybrid and Zero-Emission Truck and Bus Voucher Incentive Project (HVIP)

The Hybrid and Zero-Emission Truck and Bus Voucher Incentive Project (HVIP) and Low NOx Engine Incentives is a program created by the California Air Resources Board (CARB) to help speed the early market introduction of clean, low-carbon hybrid and zero-emission trucks and buses. HVIP helps build the market by reducing the cost of these vehicles for truck and bus fleets, such as RTD, that purchase and operate the vehicles in the State of California. HVIP vouchers are intended to reduce about half the incremental costs of purchasing hybrid and zero-emission medium-duty and heavy-duty trucks and buses.

Bus and Shelter Advertising

RTD currently contracts out all of the sales of advertising space on RTD's fleet and facilities. RTD staff also pursues in-kind partnerships for advertising with applicable partners.

Rental Income – Greyhound Lines, Inc

RTD currently contracts with Greyhound to provide rent space to serve their passenger operation at RTD's Downtown Transit Center.

Other

RTD pursues discretionary and competitive funding, as opportunities become available, that would assist with operating activities or capital improvements. RTD will continue to pursue Public/Private Partnership (PPP) and sponsorships for specific operations assistance. Examples of this include maintaining agreements with school districts, secondary education districts, and local governments to develop agreements for service and purchase of discounted monthly passes for retail sale to the public. RTD anticipates expanding PPP opportunities to fully fund specific public transportation support services in downtown Stockton.

RTD receives rental funds from the commercial portion of the DTC. Currently occupied by a café, RTD's commercial space takes advantage of mixed-use development design by providing a retail location. Revenues associated with the rental space are used for support administrative operations.
